HONOLULU AIR TRIP TO START FROM B.C. COAST

Maj. C. O. Osborne Eligible
For \$35,000 Prize, Say Dole
Contest Leaders

Other Airmen to Hop Off
From Coast of California

San Francisco, July 27.—Major Cur-
son O. Osborne of Vancouver, British
Columbia aviator, who announced he
intended hopping off from Vancouver
for Honolulu "although apparently in-
eligible" for the \$35,000 Dole prize, will
be within the rules of the "air derby"
if he starts anywhere on the North
American continent. Dole representa-
tives declared here today.

"He can start from Alaska if he
wants to," the flight officials declared.
"It will only be necessary that Major
Osborne first file the entry blank and
\$100 fee with the flight committee here
and then start not earlier than August
12 at noon."

A number of United States con-
testants are to hop off from the San
Francisco Bay region.

CHAMBER CALLS PUBLIC RALLY ON GRAIN PROPOSALS

Mayor J. C. Pendray and
Members of City Council
Invited

Chamber Speakers to Tour
Service Clubs in Support
of Project

A public meeting in support of the
Panama Pacific terminal grain elevator
project is called by the Chamber
of Commerce for Tuesday at 8 p.m.
Mayor J. C. Pendray and members of
the City Council have been invited to
attend, to lay their views before a
massed rally of ratepayers.

Speakers will also be heard from the
Chamber of Commerce special com-
mittee supporting the passage of the
by-law, on a programme that will af-
ford ample time for all phases of the
quest to be covered by speakers in
touch with their subject.

Ten minutes will be allotted to each
speaker, and a strict time limit will
be enforced in order that the full pro-
gramme may be completed. C. P. W.
Schwenger, president of the chamber,
will take the chair.

Chamber of Commerce speakers will
make a tour of the service clubs be-
tween now and the date of polling, to
advise the fullest possible publicity to
the terms of the by-law aimed at the
erection of Ogden Point of a million
bushel elevator to take advantage of
Victoria's opportunities as a grain port.

WORKER DROWNED IN RUSHING FLUME

Puntledge Man Swept to
Death After Overbalancing
Near Intake

(Special to The Times)

Courtenay, July 27.—Crawford
Thomson, an employee of the Cana-
dian Collieries Company at Bevan,
was drowned in the company flume
yesterday afternoon. Three men, one
of whom was Thomson, were repairing
the flume 300 yards from the intake
when the accident happened.

Thomson overbalanced and fell into
the water, which is seven and a half
feet deep, and runs at the speed of
eighteen feet a second.

John Miller, another workman, ran
with pike pole and rescued the body
of Thomson as it floated down 250
feet below, but at that time life was
extinct. Thomson was an aged married
man and lived at Puntledge.

Salmon Catches Increase in Size

Prince Rupert, B.C., July 27.—Salmon
catches in the Skeena during the last
week have been more satisfactory, owing
to continued sunny weather, than
earlier in the season.

MAN IN VANCOUVER HIT BY AUTO DIED

E. Young Succumbed in Hos-
pital; L. Palitti Faces Charge
of Manslaughter

Vancouver, July 27.—His skull frac-
tured when he was struck by an auto-
mobile driven by Loretto Palitti on
Main Street between Hastings and
Pender Streets in Vancouver on Mon-
day, Edgar Young, 826 Jackson Avenue,
died in St. Paul's Hospital today.

Palitti has been charged with man-
slaughter, the bail in his case being
raised from \$3,000 to \$5,000. He ap-
peared before Magistrate Findlay and
was formally remanded for one week,
pending the outcome of the inquest.

Young was unmarried. The authorities
have been unable to find any rela-
tives.

Ontario Government Wants
Airmen to Help Guard
Against Forest Fires

Toronto, July 27.—Capt. W. Roy
Maxwell and Capt. T. B. Tully of the
Ontario Government Air Service, who
were chosen from a large number of
applicants for the London, Ontario, to
London, England transatlantic non-
stop aeroplane flight and who were re-
fused leave of absence to undertake
the project by the Ontario Government
yesterday, announced today that they
would accept the decision of the Gov-
ernment and continue their forest pat-
rol work.

In regard to Lieut. Schiller's partici-
pating in a non-stop flight from Wind-
sor, Ontario, to Windsor, England, in
company with Phil Wood of Detroit,
announcement was made today that
Schiller had not been given permission
to attempt the flight. At present he is
on four days' leave of absence and
will be expected to return to his duties
at the end of that time.

Interest in the proposed London-to-
London flight now centres around Capt.
Dave Harding of Camp Borden and
Capt. Vance, who were selected as sub-
stitutes for Maxwell and Tully in the
event the Ontario Government aviators
would be unable to make the flight.

In a statement last night, Hon. W.
F. Finlayson, Minister of Lands and
Forests of Ontario, said:

"The Government would like to al-
low these officers to take part in this
very interesting flight and both offi-
cers are keen for permission, but under
all the circumstances it is felt the
public interest requires the presence
of these two officers on duty during the
extremely hazardous forest fire period."

Maxwell and Tully had hoped to be
given leave for August and September
to make the flight.

Gallant Rescue Attempt at Niagara Falls Failed To-day

Niagara Falls, N.Y., July 27.—Wading
more than fifty feet out in the Ma-
gare River from the mainland, less than
100 feet above the brink of the Ameri-
can Falls, James L. Shay of this city
made a valiant but futile attempt to
rescue a man believed carried to death
over the cataract to-day.

A suit case and hat were found on a
beach near the spot, and identified as
belonging to Louis H. Beck, a florist
of Buffalo.

S. J. SOLOMON, ARTIST, DIED TO-DAY

Initiated Camouflage in
British Army at Beginning
of World War

London, July 27.—Solomon Joseph
Solomon, noted British artist, who
called attention to the need of camou-
flage in modern warfare and initiated
it in the British army at the out-
break of the World War, died in Lon-
don today. He was born here sixty-
seven years ago. Among his many
works are the decoration in the House
of Commons and the Houses of Parlia-
ment.

Two Princes and Premier Enjoying Atlantic Voyage

On board the liner Empress of Aus-
tralia, July 27.—Unlike some of the
previous Atlantic crossings of the
Prince of Wales, the present voyage is
peaceful. The only diversion in the
voyage of Wales and Prince George had
Monday was two hours of dancing. They
retired early and reappeared yester-
day for a brisk walk on deck and
swims from the deck soon after ris-
ing, in seaful spirit.

BIG FOREST FIRES ARE PREVENTED BY AEROPLANE PATROL

Nelson, B.C., July 27.—Capt. Ted
Dobbin's aeroplane, operating from
Nelson for the forestry service, spotted
four lightning fires late yester-
day on False Creek, north of
South Slope. Crews were at once
rushed out and the flames are be-
lieved under control to-day. Light-
ning is general in the district and the
forestry plane will go up this
morning in the Kelso area.

PROHIBITION MAN IN TACOMA SHOT

Policeman Wounded W. H.
Thompson in Self-defence;
Death May Follow

Tacoma, July 27.—William H.
"Kinky" Thompson, well-known federal
prohibition officer working out of Sea-
Tac, was shot to death by a mob of
people, probably fatally, here this
morning by Motorcycle Officer William
Nerbonne after he had attempted to
"pull" a gun on the latter.

The officer had been called by the
janitor of the Parkland School, who
reported to police headquarters that a
drunken and disorderly couple had
driven on the school grounds and were
fighting. As Nerbonne drew up to the
car, according to several eyewitnesses
of the shooting, Thompson made a
quick motion to a shoulder holster and
pointed his gun out of the left side of
the car. Nerbonne beat him to the
draw. It was reported, and shot point-
ing.

Nerbonne was in full uniform.
Thompson was immediately stripped
of his gun, club and badge, and the
woman with him was arrested.

BIG B.C. HARVEST TREK TO GET UNDER WAY ON AUGUST 15

Low Fares to be in Force
From Then Until Sept. 17
For B.C. Workers

Registration of Victoria men who
want work in the prairie harvest fields
this year will commence at the Em-
ployment Bureau shortly, following
the completion of arrangements for
handling the annual movement of
labor to the prairies for the grain
harvest.

Low fares for harvesters will become
effective on August 15, and will re-
main in force until September 7, it
was announced to-day. These dates
are later than those fixed by railways
last year owing to the late season.

MANY MEN AVAILABLE
How many men will go from British
Columbia to the prairies this year
cannot be estimated yet until the
prairie crop has matured further and
its probable size is known. Altogether
British Columbia has 6,000 available
for harvest work, according to figures
collected by the Employment Service.
Because of the large influx of immi-
grants into the prairies in the last
year it is thought this number may
not be required from this Province,
but British Columbia labor will be
given a preference because contingents
of harvesters sent from here are always
carefully selected by the Employment
Service. No men physically unfit for
harvest work are assisted in the trip to
the prairies.

Balloon Race is To Start Sept. 10 At Detroit Field

Washington, July 27.—Porter Adams,
president of the National Aeronautics
Association of the United States, an-
nounced to-day that the James Gordon
Bennett International Balloon Race
would be held September 10 at De-
troit.

Adams predicted the meet this year
would be the largest ever held in the
United States, and would draw entries
from six foreign countries.

POULTRY CONGRESS, WORLD EVENT, IS OPENED AT OTTAWA

Delegates From All Con-
tinents Attend Discussions
and Show

Governor-General, Premier
King, U.S. Minister and
Others Speak

Ottawa, July 27.—The Third
World Poultry Congress, an official
event of this morning with
thousands of delegates and
members from all five continents
in attendance.

Every inch of space in the Auditor-
ium was occupied when Hon. W. R.
Mowbray, Minister of Agriculture
of Canada, as honorary chairman, opened
the proceedings. On behalf of the Em-
pire, Viscount Willingdon, Governor-
General of Canada, heartily welcomed
the international and Canadian dele-
gates. Premier King greeted the visi-
tors on behalf of the Canadian people
and a civic welcome was then extended
by Mayor John Balmorlie of Ottawa.

APPEALING VOICES
Edward Brown, of London, England,
Congress chairman, briefly responded
to the welcome extended. For the dele-

try Congress at Ottawa to-day.

gates from forty-two states in the
American union, William Phillips,
United States Minister to Canada, ex-
pressed his deep appreciation of the
efforts made by the Canadian Govern-
ment to bring the Congress to Ottawa.
He commended the efforts of his
compatriots attending the Congress.

Forty-two countries were of-
ficially represented. Nearly 5,000
people, including delegates and
members from five continents, were
present. Some forty-two states of
the American union were repre-
sented, while all the provinces in
Canada had delegates on hand.

At the conclusion of the formal
opening, Viscount Willingdon was the
guest of honor at a luncheon tendered
by members of the congress.

The Governor-General, speaking in
English and French, the official lan-
guages of the meeting, expressed the
hope that the representatives of all
countries would find "great pleasure,
great interest, great profit and great
value" from their visit.

On behalf of the Government
and people of Canada, I would like
to say how warmly we welcome
you to this country, in this year
of our Diamond Jubilee celebra-
tion," declared Premier King.

"In coming to Canada," continued
the Prime Minister, "you will see citi-
zens who have come to us from the
lands from which you came. You will
see how those of other lands have
found a home here, a home that is
full of promise, with opportunities
of prosperity and happiness which we
believe to be unparalleled in the
world."

GAINS RECORDED
President Brown, in thanking the
speakers for the welcome, referred to
assistance given in the pioneer days
of the poultry industry by Viscount
Willingdon, when a young man, and by
Lady Willingdon's father and mother,
Lord and Lady Brassey. The efforts of
the Canadian Government for the ad-
vancement of poultry also had been
marked with success.

AUTO SKIDDED FOR 217 FEET

Then Rolled Over Six Times;
Five Vancouver Persons
Injured

Edmonton, B.C., July 27.—Five persons
were severely injured and a large new
car owned by Joseph F. Langer, Gran-
ville Street, was completely wrecked
last evening when it skidded 217 feet
on Douglas Road, and then rolled over
half a dozen times in a distance of
seventy-eight feet.

The injured are Harold Farley, driver,
and his little brother Frank; Arthur
Thompson, Fred Lambert and
Robert McLean. All are suffering from
cuts and bruises and shock.

FIVE HURT
Quebec, B.C., July 27.—Two persons
were injured and three others badly
scratched and shaken up when an au-
tomobile driven by James Williams of
Prince George went over Red Bluff Hill.
The injured are Mrs. H. Moffatt of
Quebec, who sustained a fracture of
the collar bone, and Mrs. Walter Par-
ry of Lac la Pêche, body bruised and
cut. Williams was slightly bruised,
and the others, Miss Dreda Millure and
Ed Hipsley of Prince George, also re-
ceived bruises and scratches.

BRACKEN COMING HERE THURSDAY IN BEER INQUIRY

Manitoba Premier Will In-
vestigate Province's Method
of Sale

Dr. King Coming Here Mon-
day to Meet Provincial
Ministers

To investigate British Columbia's
liquor system and particularly its
method of selling beer by the glass in
licensed premises, Hon. John Bracken,
Premier of Manitoba, will reach Victo-
ria to-morrow.

Mr. Bracken came West to see liquor
conditions and methods of handling
beer at first hand, following a plebeian
cite in which the people of Manitoba
decided in favor of beer sale. The Pro-
vincial Government is busy now draft-
ing legislation under which beer will
be sold and serving a system for
handling it. Mr. Bracken will investi-
gate beer sale methods all over Canada
before he recommends legislation to
the Manitoba Legislature shortly.

TO MEET MACLEAN
On his arrival here to-morrow Mr.
Bracken will meet Hon. J. D. MacLean,
Acting Premier, for a general talk.
Later he will go to the offices of the
Liquor Control Board to secure facts
about the provincial liquor adminis-
tration. All information on beer and
other phases of liquor administration
will be made available to the Manitoba
Government leader.

Hon. J. H. King, Federal Minister of
Health and Soldiers' Civil Re-estab-
lishment and British Columbia's repre-
sentative in the Federal Government, will
arrive here Monday for conference with
the Provincial Government. Members
of the provincial administration are
anxious to take up with Dr. King vari-
ous matters connected with his de-
partments and with the Federal Gov-
ernment generally. Dr. King is ex-
pected to spend several days in the
city before returning to Ottawa. He
has been making a tour of interior
British Columbia.

Two Britishers Preparing For Atlantic Flight

Dublin, July 27.—F. F. Hinchin,
of the British Imperial Airways, and
Leslie Hamilton, British air taxi
owner, who are preparing for a trans-
atlantic aeroplane flight, flew to-day
from Dublin to Clifden, Galway, to
make a definite point for their
hop.

They hope to leave about the mid-
dle of August in a Fokker monoplane.
The latest statement of the flight
plans shows their first objective will
be Ottawa, whence they hope to fly to
London, Ont., and then back to Lon-
don, Eng., their desire being to win
the \$25,000 offered for that feat.

PEACE TREATY FOR PACIFIC DISCUSSED

Suggested Pact Debated at
Conference of Institute of
Pacific Relations

Honolulu, July 27.—The draft of a
proposed treaty to abolish war among
the nations of the Pacific region was
before the Institute of Pacific Rela-
tions to-day, having been pre-
sented by a delegate from the United
States, Prof. James T. Shotwell of the
history department of Columbia Uni-
versity.

Divergent views as to the applica-
bility of the proposed "American Lo-
carno" to the nations involved were
expressed by the delegates, particularly
those from Japan. Prof. Kenzo Tak-
ayagi, head of the Japanese delega-
tion, announced a clause in the pro-
posed Shotwell treaty containing an
exception in behalf of the Monroe Do-
ctrine would not be acceptable to his
country. The Japanese spokesman
maintained the Monroe Doctrine was
contrary to international law.

WAR IS IMPOSSIBLE
Dr. Stanley K. Hornbeck of Harvard
University said there was little chance
of war between Japan and the United
States short of "a brainstorm on the
part of both governments."

Prof. Shotwell explained the "pur-
pose of his treaty at length, declaring
he believed it applicable to the Pacific
since he had Japan in mind when he
drew it up. He cited Poland and Ger-
many as examples of nations which had
abandoned war as a policy.

MRS. CATT SPEAKS
Mrs. Carrie Chapman Catt, United
States feminist leader, contended it
would be illogical to hold undeveloped
territory in the Americas and else-
where in cases where such territory had
been secured through conquest. She
maintained such territory, having been
taken through conquest, should not be
suggested over-populated countries
under threats of war if any colony-
seeking nation should attempt acqui-
sition.

AUSTRALIAN VIEWS
"We are deluding ourselves when we
say there is no chance for war in the
Pacific," said H. Duncan Hall, an
Australian delegate.

F. W. Eggleston, another Australian
representative, declared the greatest
trouble with Shotwell's treaty was
a strong nation like the United States
could persuade Japan to sign, where
a weak one, like China, could not. He
suggested disarmament in the Pacific
could be treated regionally and urged
the institute to consider the question.

1,000 DEATHS IN DISASTER IN INDIA

Reservoir in State of Baroda
Burst and Big Area Was
Flooded

London, July 27.—An unconfirmed re-
port from Ahmedabad, Bombay presi-
dency, India, states 1,000 deaths oc-
curred in the native state of Baroda
as the result of a reservoir, fifteen
square miles in area, bursting its
banks and flooding surrounding vil-
lages. Communications between Bom-
bay and Baroda are cut off.

BODY OF MISSING MAN FOUND IN KELP

Believed He Slipped Into
Water While Salvaging
Cedar Log

The body of Alexander Bruce, 481
Head Street, former employee of the
Esquimalt municipality, who had been
missing since July 4, was found by
Reginald Gray, a fifteen-year-old boy,
this morning, floating in the kelp off
Macaulay Point. Although it was badly
decomposed relatives were able to
identify it as that of the man for
whom a search had continued for the
last three weeks, and for information
of whom D. Jephson, a brother-in-law,
had offered a reward of \$50.

The lad, who is the son of a soldier
at Work Point Barracks, was talking
along the shore searching for trace of
the missing man. He reported his dis-
covery to Constable D. Hodnett, who
with relatives brought the body ashore
and got in touch with the Provincial
Police, who took the body to the
Sands Funeral Parlors. Date of the in-
quest will be set later.

Bruce was employed at Work Point
Barracks up to the time he was miss-
ing. He was in the habit of gathering
wood from the water, and it is thought
that he slipped while doing so and got
into difficulties. On the day he was
missing he started out with an axe to
secure a cedar log to split up for posts
for his loganberries.

NEW YORK STRIKE THREAT REMOVED

Street Car and Subway
Agreement, However, Still
Has Weak Points

New York, July 27.—Freedom of the
immediate threat of a transportation
strike, New York's traveling millions
breathed more freely as they rode to
work to-day.

The threatened strike which last
midnight was to have tied up all of
New York's subway and elevated sys-
tems, was called off last evening by
a series of conferences between Mayor
James J. Walker, and officials of the
union and the companies.

A difference of opinion regarding the
terms of settlement was seen to-day as
trending to cause further possible
trouble.

FIRE WIPES OUT JAPANESE AREA

Twenty Old Crowded Build-
ings Near Cumberland
Destroyed

(Special to The Times)
Courtenay, July 27.—Last night at 5
o'clock fire broke out in what is known
as Oak Town, at the entrance to Cum-
berland, on the Courtenay Road, and
completely wiped out the settlement.
From sixteen to twenty houses and
the store were destroyed. The build-
ings were all old and crowded together
and despite the efforts of the Cum-
berland fire brigade nothing could be
done to isolate the fire.

Intimation Given Russians
Propaganda in France
Must Stop

Paris, July 27.—Jean Herbet, French
Ambassador at Moscow, who recently
spent two weeks in Paris, re-
turned to his post bearing instructions
that the Soviet Government was to be
informed of the French attitude in
French public opinion, it was learned
to-day.

Although the French Foreign Office
says M. Herbet was not instructed to
make official representations involving
both governments, in an exchange of
notes, official circles are certain he was
to make the Soviet Government con-
scious of an informal and unofficial
manner of the sentiment of the French
people and Government.

INQUEST OVER MOTOR VICTIM

Miss Jean Coddington Died
Yesterday Afternoon; Jury
Inquest To-morrow

Miss Jean Coddington, one of the
three occupants of the automobile
wrecked early Monday morning, died in
the Jubilee Hospital yesterday after-
noon at 3:45 o'clock. An inquest will
be held to-morrow morning, at the
B.C. Funeral Parlors, commencing at
10 o'clock.

Chief of Police John Fry stated to-
day that there was a possibility of an
acquittal of the driver of the car, since
Fraser Tolmie, driver of the car, was
still in hospital, and according to his
doctor, not yet out of danger.

Miss Coddington is survived by her
father and mother, Mr. and Mrs. A. D.
Coddington, 914 Methwin Street, one
sister and one brother. The funeral
will take place after the inquest. Ev-
erence is heard to-morrow and private
service has been arranged.

Coste's Atlantic Flight Plan Ended

Paris, July 27.—The French Cabinet
to-day formally declared itself against
authorizing the proposed Paris-to-New
York aeroplane flight of Deleudonne
Coste, at the same time sharing down
the principle that no such flights in
French military planes would be sanc-
tioned unless the planes were equipped
with pontoons.

Coste, who is the son of a soldier
at Work Point Barracks, was talking
along the shore searching for trace of
the missing man. He reported his dis-
covery to Constable D. Hodnett, who
with relatives brought the body ashore
and got in touch with the Provincial
Police, who took the body to the
Sands Funeral Parlors. Date of the in-
quest will be set later.

NEW FLYING FIELD IN NEWFOUNDLAND

Government Asked to Grant
Space For Use of Trans-
atlantic Fliers

St. Johns, Nfld., July 27.—The New-
foundland Government has been re-
quested to grant a tract of public land
near Harbor Grace, in the north side
of Conception Bay, for purposes of
transatlantic aviation.

Fred Koehler of Detroit, representing
the Stinson Aeroplane Company, peti-
tioned the Government to grant a
piece of land near the harbor to be
used for two flying fields. On each
field would be established a runway
300 feet wide and 4,000 feet long.

The fields, Koehler said, would be
used primarily by the Waco Air Service
Company of Detroit, which is sponsor-
ing an attempt to fly around the
world in fifteen days.

WHY CUSS?

To the Editor:—Because a demented woman decided to commit suicide by starvation, must all those from Moses to McCoy who have recommended occasional abstinence from food be submitted to the thundering artillery fire of aspirants who pose as authorities upon the function of nutrition? Must they all be indiscriminately damned because a would-be dictator is displeased with the general enlightenment that appears to be interfering with the future of a great corporation? "Great is Diana of the Ephesians!" The information recently broadcast by means of the press, has contributed immeasurably to the health and welfare of the public. With a few rare exceptions the results have been excellent. It is too late in the day to ridicule or condemn. Moses has stood the test of centuries. McCoy is still going strong, and both are enjoying a measure of appreciation that many of us would envy.

LENDS SUPPORT
GRAIN BY-LAW

J. W. Spencer of David Spencer Limited, giving his views of the terminal grain elevator project to go before the ratepayers on Thursday of next week, said to-day:

"Of the three by-laws that have been in the minds of Victorians, I think the elevator by-law, perhaps, the most important. For one thing, if passed, it will link up the Canadian National with Victoria development."

With certain orthodox opinions, let me quote from one of the greater lights in the medical world—Dr. Keith of Edinburgh—a man widely known to the medical profession and universally respected. Listen, ye who would throw mud!

Dr. Keith, after expressing his regret that his opinions run counter to the usual teachings and practices of his day, went on to say regarding feeding in sickness. "Neither medicine nor alcoholic stimulants nor foods are necessary as a general rule, but on the contrary are absolutely injurious; and the only conclusion we can come to is that the sick are, in most cases, to be left to Nature's methods, and to these I am fully agreed. These, according to this celebrated authority, are abstinence from food, time, rest, plenty of fresh air, water and heat. I have heard of men who never had taken medicine or consulted a doctor, and who, if they felt unwell, at once stopped all food. If this was not enough, they went to bed and remained there until they were better. The first rule, I have followed for forty years, the last for fifteen, and I do not intend to do anything more in the future. It may be asked if the present system of treating the sick be so hurtful, how do so many recover under it? I answer by asking another question. How is it that so few reach the age of five score which, from the time of Jacob, has been considered an extreme old age? May not the bad treatment of the sick be one large cause of the shortened life, as is the bad treatment of themselves by the healthy? How did any of these men who opposed the current medical theories of his day, which are practically those of the modern medicine of A.D. 1927; yet of he were alive, he would no doubt welcome antitoxin for diphtheria, and insulin for diabetes."

NASH

Leads the World in Motor Car Value

"Come drive" week
July 27th to Aug. 3rd

An invitation
to drive the easiest riding
cars you ever traveled in

The Three New Series of Nash motor cars, introduced thirty days ago, have won quick recognition of their worth.

It is their beauty, speed, lowered lines, attractive colors and, above all, their phenomenal new performance which have given so much added impetus to Nash sales. (July 58% greater than any July in Nash history; and production now reaching the unprecedented total of 700 to 800 cars daily.)

Praise for these finer, faster models of Nash is heard everywhere.

Those who have driven them will tell you that supreme riding luxury is accomplished by the new Nash super-springs of secret-process alloy-steel.

They will tell you the engines in these new cars are smoother and quieter than ever.

And they will also tell you that these are the easiest steering cars on earth!

It is the greatest motor car contrast in the world today to step out of your car, and then drive one of these great new models of Nash.

We want you to know that contrast. This is Nash "Come Drive" Week. Courtesy cars are waiting at our showroom for you to try.

All you need to do is step into the car, sit down behind its wheel, and drive it. No sales pressure. No obligation. Don't buy any car today, until you have driven a Nash!

GENERAL MOTORS NOW GREATEST IN WORLD

Corporation With Earnings of \$129,250,207 for First Half of 1927 Assumes Undisputed Industrial Leadership; Duponts Reported Buying Into United States Steel Corporation

New York, July 27.—The New York Herald-Tribune to-day says: "Far-reaching plans involving direct community of interest among the Steel Corporation and General Motors and E. I. DuPont & Co. are moving swiftly forward, according to well defined reports in Wall Street."

"The Duponts, already dominant in General Motors, have been quietly buying heavily of Steel common lately amounting to over 114,000 shares."

"It is expected the next move on the part of the Duponts will be to seek representation on the Steel Corporation's board of directors."

New York, July 27.—The General Motors Corporation, reporting record-breaking net earnings of \$129,250,207 for the first half of 1927, an increase of \$27,550,253 over the corresponding period of last year, to-day assumed undisputed leadership among industrial and railroad corporations of the world.

The U.S. Steel Corporation, its nearest competitor, reported net earnings of \$91,025,185 in the first six months, as against \$92,875,390 in the same period of last year.

General Motors earnings in the first half of 1927, which include equities in undivided profits of subsidiary corporations not consolidated were equivalent to \$14.35 a share on 8,700,000 shares of common stock outstanding on June 30, compared with \$11.56 a

share for the same period of 1926, making allowances for increased number of shares resulting from a stock dividend paid September 11, 1926.

With the exception of the stupendous war-time profits of the United States Steel Corporation in 1918 and 1917, the current earnings of General Motors have never been surpassed.

In 1916, U.S. Steel reported full year's earnings of \$29,000,015, while 1927 earnings of General Motors, if the last half equals the first, will exceed \$284,000,000.

Alfred P. Sloan Jr., president of General Motors, reported current business as satisfactory and stated that both sales and earnings for the first six months exceeded those of any half year period. Quarterly earnings established a similar record.

The sensational earnings of the corporation were anticipated by General Motors common stock, which advanced more than five points to \$225 a share, making the eighth consecutive day in which a new peak had been established by the earnings issue. The two for one stock split-up expected in some speculative quarters failed to materialize.

Wall Street's rumors about changes in the personnel of the General Motors and U.S. Steel Corporation also proved to be unfounded. These rumors inferred that Pierre Dupont would be elected a director of the steel board, and eventually would succeed Elbert H. Gary as chairman, and that Mr. Sloan would become chairman of the General Motors board.

General Motors president by Walter Chrysler.

Directors of the United States Steel Corporation declared the regular quarterly dividends of \$1.75 a share each on the common and preferred stocks.

IRELAND HAS NEW PUBLIC SAFETY ACT

Dublin, July 27.—President William T. Cosgrave's positive declaration before the Dail Eireann yesterday, fixing the responsibility for the murder of Kevin O'Higgins on the extreme wing of the irregular army, secured the passage of his Public Safety Act.

Some members, believing the murder was due to private vengeance, had hesitated to accord the Government the exceptional powers the new measure provides for. Particular objection was taken to empowering the police to search for documents, imprisonment for the possession of seditious documents, and deportation of suspicious persons.

The organization the Government believed to be responsible for the policy of assassination as a means of upsetting the States was described by Mr. Cosgrave as having broken loose altogether from the association with Eamonn de Valera, and was not under the Republican Party's control. It was the remnants of the "Irregular" army which in May, 1923, Valera called off from the civil war. Arms were not surrendered at that time, said Mr. Cosgrave, and may still be hidden.

He declared also documents which had been seized indicated Irish revolutionists had been trying to purchase artillery from Germany and rifles from Italy and France.

Some members, while willing to give the Government power it asked for against crime, disapproved of President Cosgrave's supplemental proposals altering the rules for qualification of candidates to block Valera's political agitation against the oath of allegiance to the King.

Patrick Belton, who was elected as a Republican for Dublin County and who was a signer of the protest of Valera against the oath to the King, yesterday took the oath and his seat in the Dail. There was no demonstration when he appeared.

REPORT DENIED

Ottawa, July 27.—It is stated here that Canada has made no representations to the British Government with respect to certain matters in dispute at the Geneva Naval Conference. A dispatch from Geneva suggested the Dominions were urging Great Britain not to be apprehensive over details of the United States building programme because there was no possibility of war between the United States and Britain. Canada, it is stated here officially, has made no representations in regard to the United States programme.

CITY OF TORONTO LOSES GAS SUIT

Privy Council in London Decides in Favor of Consumers' Gas Company

Toronto, July 27.—The appeal of the City of Toronto against the Consumers' Gas Company's methods of accounting in regard to the premiums was dismissed with costs by the Judicial Committee of the Privy Council here yesterday.

The question at issue in the appeal was as to whether the City of Toronto was entitled to compel the gas company to carry premiums on its sales of stock to a special reserve fund which should be applied on reduction in the cost of gas.

The lower court held the city itself had no recognized position or right to intervene and in consequence the Judicial Committee of the Privy Council recently granted a petition to have the Attorney-General of Ontario, Hon. W. H. Price, joined with Toronto in the appeal.

The suit by the City of Toronto against the Consumer's Gas Company centred about what should be done with the funds derived from the amounts by which the price of stock sold by the company exceeded par. Legislation passed in 1887 and 1904 provided that all surplus realized over the par value of shares should be applied to the reserve fund until that fund equaled half the stock issued, and that "the surplus of net profits, including the premiums on the sale of stock," after meeting certain demands, was to be applied on the reduction of the price of gas.

LARGE AMOUNTS INVOLVED
The City of Toronto contended, and the company denied, that this legislation applied to \$8,500,000 in stock issued since 1908. The company contended it applied only to \$3,500,000 in stock issued in or prior to 1904. The city's contention meant the company had failed to apply to the reduction of the cost of gas to the consumers in the neighborhood of \$5,000,000.

At the trial, Mr. Justice Logie gave judgment in favor of the city. The appellate court reversed this decision and held the city had no status to bring this action. Then followed the appeal by the city to the Privy Council in London.

ARMED NICARAGUAN BAND IS PURSUED

Managua, Nicaragua, July 27.—United States Marines and men of the Nicaraguan Constabulary were awaiting orders to-day to run down the band of irregulars of the Nicaraguan General Sandino, which tried to surprise a column of Marines and constabulary under Major Oliver Floyd at San Fernando Monday.

A number of shots were fired in this attempted attack, a marine and several men of the constabulary being wounded, but the irregulars were pelted to rout with the loss of several killed and a score wounded.

Military circles here expect an action will soon take place between the irregulars and the Marines in which aeroplanes will have a part, just as they did in the battle ten days ago at Ocotal, when Sandino's band tried to capture that town from a handful of Marines and constabulary. Sandino lost 300 of his followers in the Ocotal battle, which lasted for seventeen hours. One marine was killed and another wounded.

Ocotal and San Fernando, lying to the north of Managua, are twenty miles apart.

Major Floyd was sent to the region with a contingent of Marines after the Ocotal battle to prevent reorganization of Sandino's forces.

SIMILKAMEEN TORIES PLANNING NOMINATION
Vancouver, B.C., July 27.—The Conservative convention for the Similkameen district will be held at Keremeos on July 28, when it is expected W. A. McKenzie, present member, will be chosen candidate for the next provincial election.

MR. JUSTICE LENNOX DIED IN TORONTO

Was Seventy-seven; High Court Judge For Fifteen Years

Toronto, July 27.—Mr. Justice Houghton I. S. Lennox, a judge of the high court division of the Supreme Court of Ontario, died at his home here last night, aged seventy-seven, after a illness of slightly more than three weeks. He was unable to take his place as vacation judge at the beginning of July on account of illness and thereafter did not return to Osmonds Hall.

He is survived by a widow, the daughter, Mrs. Ottawa W. Morris, and two sons, O. E. and Keith Lennox, all of Toronto.

Houghton Ignatius Samuel was Mr. Justice Lennox's full name, but for the sake of convenience he always ignored Ignatius Samuel. He was born in Simcoe County, Ontario, in 1850 and won his way to legal and political fame in his native county.

On being called to the bar in 1878 he began practice in Barrie, Ont. He acted either as prosecuting or defence counsel in many noted criminal cases. Owing to his wide knowledge of human nature as well as of law, he was regarded as an excellent man with a keen sense of justice and an authority on municipal law.

MEMBER OF COMMONS
He was a Conservative and had an enviable reputation as a stump speaker. He was elected to the House of Commons for South Simcoe, Ontario, in 1900, and sat continuously until 1912, when he was appointed to the bench. At the time of his election the National Transcontinental Railway was being constructed under the Laurier administration. The Conservative opposition was weak in that it had no man who was familiar with railway problems. Houghton Lennox undertook to fill the breach. He set to work and made an exhaustive study of every phase of railway building in Canada and became the recognized spokesman of his party on those matters. He criticized the National Transcontinental, predicting it would always be a financial loss. His criticism was always fair-minded and constructive.

On the return of the Conservative to power in 1911 he became chairman of the Railway Committee of the Commons. While in the House he introduced legislation for the protection of railway employees. Up to that time it had been possible for the railway companies to form contracts with their employees exempting the companies from the liabilities imposed on them by law. Mr. Lennox secured the passing of an act to prevent this. The railways appealed to the courts to have the legislation set aside as ultra vires. The future judge, however, fought through right to the Privy Council in London and won.

Of an intensely practical turn of mind, Mr. Justice Lennox had little sympathy for abstruse legal argu-

for Summer... a Special suggestion

To keep perspiration odorless... try LIFEBOUOY

Its antiseptic lather purifies pores — keeps you fresh

WHAT joy in sweltering summer weather to know that you can be active all day long—work, exercise, dance—do anything that causes perspiration—and still be safe from all fear of unpleasant odor.

Millions know this healthful, easy way to avoid offending—Lifebuoy! So refreshing it's a delight to bathe with it every day. It purifies pores all over the body—gives lasting freedom from perspiration odor.

For healthier complexions

Lifebuoy's mild, antiseptic lather not only purifies body pores—it purifies face pores, too, keeping complexions clear, fresh and glowing with health.

Better still, this same purifying lather helps

protect against disease. It removes germs from hands, as well as dirt.

Note its protecting hygienic scent

Lifebuoy is so different from other toilet and bath soaps that even its scent is different. Not a perfume, but a clean, pleasantly hygienic scent which tells you Lifebuoy gives greater protection.

Even before you've finished your first cake, you'll learn to love this cleanest of all soap scents, which quickly evaporates after rinsing.

Extra protection—free

Lifebuoy assures greater health protection and complete freedom from body odor—yet costs no more, probably less, than the soap you now use. Lifebuoy is orange-red, a big generous cake. Get some today—wherever soap is sold.

THE GREAT POULTRY CONGRESS

FROM TO-DAY UNTIL AUGUST 4 OT-tawa will be the scene of the Third World's Poultry Congress. Delegates from forty countries will have arrived at the capital by this evening and it will be fairly safe to say that neither the Governor-General nor the Prime Minister ever before has addressed such a cosmopolitan gathering. Many of these delegates will discuss the industry in its various phases and present papers dealing with the most recent discoveries in their chosen fields; they will also enter into a discussion of policies likely to promote the world's poultry keeping along sound and profitable lines. The scene will be enlivened by the presence of thousands of feathered aristocrats from many countries, British Columbia, incidentally, being represented by more than seven hundred of our best biddies.

It also is interesting to note that in 1912 the representatives of several nations met in London, England, to discuss the interchange of ideas that might be considered of benefit to the world's poultry industry. As an outcome of that meeting there sprang into existence what is now known as the International Association of Instructors and Investigators in Poultry Husbandry. This organization was responsible for arranging and carrying out with substantial success the first World's Poultry Congress at The Hague in 1921; but it was not until the second gathering took place at Barcelona that Canada took either practical interest or part. It was the quality of her exhibits on that occasion, moreover, that not only furnished the exhibition as a whole with one of its most outstanding features, but also prompted the suggestion that the Third Congress should be held in this country this year. Since its inception, of course, the organization has grown in influence and its work obviously is beneficial in many more ways than in the merely technical.

Most people recall, of course, that not very long ago there were those who had little faith in the usefulness, of whatever kind, of international conferences which permitted a frank interchange of view on many subjects between the representatives of the more important nations of the world. It is true that some of these gatherings have not been as fruitful of results as they might have been; but it is still a new idea in internationalism—this genuine attempt to treat all subjects of world concern with a spirit of candor and trust that were almost unknown in the days before the Great War. Many of these meetings very naturally have had to do with problems arising from that conflict; but not a few of them have been of an educational character, new efforts to instruct the people of the world in numerous matters which affect their daily lives and have a direct bearing upon their social and economic welfare.

The congress which opened at Ottawa this morning comes under this heading. Not only will the poultry industry itself benefit by the great exhibition of birds from nearly forty countries, not to mention instructive addresses which will reveal varied expert views of a technical nature, but the Dominion will benefit through the knowledge of our country and its opportunities which will be acquired by the thousands of delegates who are now its guests. Apart from this, too, the gathering is the largest of its kind ever to be held, and Canada may well be proud of the fact that she is the host country on this occasion.

SOMETHING WRONG SOMEWHERE

REPORTS HAVE REACHED THE Times that tourists coming to the Pacific Coast from Eastern Canada and the Eastern States are told that they can see all they want to see of Victoria either between boats, or in a day at the outside, and that they should make their headquarters for British Columbia in Vancouver.

There is no suggestion that tourist agencies or transportation agents in the East advise their clients in this manner with any idea of discrediting Vancouver Island; we think it is due rather to a lack of knowledge of this community and what it has to offer, and, quite probably, a hazy notion of geographical location. In any event there is unmistakable proof that these directions are being given to quite a large number of tourists who are seeing our country in a leisurely fashion and want to see as much of it in as thorough a manner as possible.

We know that none of the agencies on the Pacific Coast lose an opportunity of telling their clients to be sure and include Victoria and Vancouver Island in their itinerary, and there would be no point in the Eastern agencies doing otherwise. But it looks as if some measures will have to be taken to convince them that their unintentional slight to Victoria is far from a kindness to their customers.

OUR MOVING WORLD

PASSENGER AEROPLANES SOME time ago installed ample culinary and sleeping accommodation, to say nothing of facilities for showing moving pictures to detract from what already has become the monotony of air travel; but it was hardly to be supposed that motor busses would compete with the railway dining cars on long journeys by road. Yet this seems to be the latest transportation innovation in Great Britain. On the road between London and Bristol now may be seen motor coaches, each containing a dining saloon capable of seating eighteen persons, and a card-room lounge with seats for eight. The former is at the front and the latter at the back of the vehicle, while in the centre is the kitchen, with its teakwood sink, draining board for crockery, and cupboards and drawers for storage. The water supply is carried on the top of the coach in a twenty-gallon tank, an electric kettle and electric toaster comprising the principal kitchen equipment. The dining table is produced by pulling a tab in front of each passenger, when a glass-covered surface thirty inches by eight inches neatly unfolds. While the fare is necessarily simple and cold—with the exception of the tea and coffee and so on—an application is about to be made for a license to dispense spirits on the coaches.

The day may be some distance away when the aeroplane and the motor bus will displace the railway train and the street car; but if the present rate of development in modern transportation is kept up, the ground systems soon may find a good deal more competition than most people imagine. Railway companies everywhere are being put on their mettle and their engineers continue to turn out rolling stock, giant engines and other equipment, which they hope will help to retain the popularity of railway travel against other methods.

THERE WILL BE NO RUSH

ANY CANADIAN CITIZEN OR RESIDENT of this country who is desirous of visiting Russia, must first of all file an application with a local transportation company for a Soviet visa. That will be forwarded to the Soviet Foreign Office in Moscow which will, in its reply, indicate a consulate in Europe where the intending visitor can obtain a visa, if it is not inclined to grant one itself.

This interesting information was sent out to Canadian newspapers in a dispatch from Montreal last week. It is the natural corollary of the recent breaking off of economic relations between this Dominion and Soviet Russia. But we venture to suggest that none of the local transportation companies have felt the necessity so far of adding to its clerical staff in order to cope with the rush of applicants burning to pay an early visit to the former land of the Romanoffs. The intimation, however, should commend itself to the members of the Communist Party of Canada and to those parlor Bolsheviks who earn their living in this country by their daily toil and spend their evenings and week-ends prating about the "glorious freedom" which the people of Russia are enjoying under Soviet rule. Or no doubt special dispensation would be given to them by the authorities at Moscow. In any event, despite their admiration for Leninism, they probably will prefer Canada as a place of abode.

WHAT OTHER PAPERS SAY

ENGLISH WOMEN UNDER FIRE

From The Toronto Star

A writer in La Nación of Buenos Aires pays his compliments to English women in a manner quite exceptional on the part of one belonging to the Latin race which, as everyone knows, is unexcelled in courtesy. He writes under the name Don Federico Vagana, a name that might be considered imposing were it not for the suspicion that it may be a pseudonym. For it is not reasonable to suppose that any sane person would disclose his identity when making statements calculated to bring upon him the enmity of all the women of a great nation.

Don Federico asserts that it is the ugliness of Englishwomen that causes young Englishmen to run about the world, hunting lions in Africa, digging for minerals in Egypt and shipping nitrates from Antofagasta. He pictures the commotion that would develop in England with the arrival of a shipment of feminine beauties from the Argentine. He voices the confident prediction that if Englishwomen were expatriated and their places taken by French women the English would become masters of the world.

What Don Federico does not tell us is the nature of his experiences with Englishwomen. But he has had them. He admits it. He says he has seen Englishwomen of all ranks and under all conditions. So he can speak as an authority. The trouble may have been, however, that the Englishwomen did not see Don Federico, that they considered him beneath their notice, that they went about their own affairs and interests as though he did not exist. That is a way they have sometimes, particularly when anyone tries to get on with them by a display of effrontery.

Englishwomen may not have the same qualities as the women of some other countries, but they are beautiful in their own way and completely satisfying to the men of England, who seldom fail to return from such places as South America as soon as their globe-trotting instincts are satisfied. On the whole, it may be said, without detracting from the charms of the women of France and of the Argentine, that it seems unlikely that England will deport its women in order to make room for a fresh supply from elsewhere.

THE STADIUM

The bent professor calls it foolery. He rails out that the landscape is profaned by a hideous monster of concrete and steel. He says that football is a heathen game. The players naught but brutes who play for spoil. He protests loud against the spendthrift herd. The bleating omeas and frenzied yelling mobs.

Yet at the Colosseum, once in Rome, I saw this white-haired sage with mouth agape stand rent within that crumbling pile. He cried: "How glorious to have lived in that rich day. When gladiators died while Kings looked on. And roaring thousands rocked these mighty walls." —Elizabeth Frost Reed, in New York Times.

Do You Mean What You Say?

"DEAD AS A DODO"

"DEAD AS A DODO" The dodo is an extinct bird which once inhabited the British island Mauritius, located in the Indian Ocean east of Madagascar. It was an awkward pigeon-like bird, larger than a turkey, possessed of rudimentary wings which did not permit flight. Some Portuguese sailors landed on the island in 1510 and called the ungainly birds "dodos," which is a corruption of the Portuguese "doudo," which means silly or foolish. With the introduction of hogs and other animals on the island life became too complex for the poor dodo, and by 1681 the last of the species had disappeared.

Canadian Questions and Answers

THE CENTENARY OF GUELPH

Q.—When was the city of Guelph founded?
A.—The city of Guelph was founded in 1827 by the outstanding pioneer John Galt, the Scottish novelist and Dr. William Dunlop, another Scot. Galt named Tiger Dunlop. Both were partners in the Canada Company, a British organization that obtained a grant of 1,000,000 acres of land near Lake Huron known as The Huron Tract which was sold to pioneer settlers. The two men reached a site of the River Speed which they chose as a place to start a town and thus Guelph was founded when the country was unpopulated except by Indians. To-day Guelph is a city of 20,000 inhabitants and a substantial and prosperous one.

CONFEDERATION AND AFTER

Sixty Years of Progress

No. 38

MARITIME PORTS

The recommendations of the Royal Commission on Maritime Claims in connection with the establishment or improvement for port facilities at Halifax, St. John and Charlottetown, and the building up of trade through those ports, followed by the decision of the Dominion Government to substantially carry out those recommendations, come very appropriately at this time when Canadians are engaged in surveying the progress of the Dominion since Confederation, and looking confidently forward to a future that will be marked not merely with success but with that spirit of co-operation that assures both the welfare of the whole and the welfare of each of its parts. Canadian trade for Canadian ports is a fine slogan, but it remains an empty slogan until those ports have been equipped to handle the trade.

To appreciate what those three Maritime ports may become in the future, it is well to remember what they have been in the past, and what they are to-day. As time is measured in this New World, and particularly in Western Canada, Halifax, St. John and Charlottetown, are venerable towns, Halifax was one hundred and eighteen years old at the time of Confederation; St. John eighty-two; and Charlottetown one hundred and forty-five, its history running well back into the period of French rule. It was known in those days as Port de la Reine, and was named after the Earl of Halifax, then president of the board of trade. The first settlers were brought out from England in 1749, and the following year it became the capital of the province. Its fortifications and its ancient buildings bring back memories of notable and stirring deeds by land and sea. One associates it with such famous Canadian names as those of Joseph Howe, Sir Charles Tupper and Sir John Thompson, Samuel Cunard, the founder of the Cunard line of steamships, and Thomas Chandler Halliburton, one of the earliest and most original of Canadian novelists.

After the close of Revolutionary War tens of thousands of men who remained true to the British Empire, the United Empire Loyalists, abandoned their possessions and fled from their homes into exile. A large number of them settled in the Bay of Fundy and founded the city of St. John. They became the backbone not only of the town they created but also of the province of New Brunswick. Their descendants became notable builders and shippers of wooden ships, whose ensign was known in the ports of the seven seas.

Charlottetown brings back memories of nearly a century and a half of history, events that took place in a field that was small but far from unimportant. Experiments in land tenure that were sometimes disastrous, French colonies, British absentee landlords, Selkirk's settlement, the arrival of hundreds of Acadians from Nova Scotia, the British conquest, and a century of peaceful development, including fox-farming.

To-day these three Maritime ports are on the eve of a period of steady progress. Equipped with modern facilities, as they will be before very long, the shrewd commonsense of their citizens may be counted upon to make them not merely local ports but essential to the commerce and transportation systems of the Dominion.

VICTORIA TO PRESENT APPEAL TO REALTORS

Seizes Opportunity Offered by Great Seattle Convention

Victoria's industrial and tourist attractions will be placed before thousands of realtors from every state in the United States at the U.S. National Real Estate Convention to be held in Seattle August 10 to August 13. J. H. Findler, special representative in Seattle of the Victoria and Island Publicity Bureau, came to Victoria this morning to confer with bureau officials and a special committee of the Real Estate Board, consisting of Fred Landsberg, Alfred Carmichael, David Leeming and Hubert Lethaby. Mr. Findler will be in charge of a convention booth where albums of Victoria photographs and a supply of Publicity Bureau literature will be available. He will also direct delegates' attention to the appeal of a Victoria trip. Visits by many delegates attending the convention are already assured. All the delegates of the Chicago, Cleveland, Ohio, August 6, Winterhaven, Fla., Los Angeles and Long Beach boards have decided to include Vancouver Island and in their trip.

"HUSKY" GREATLY BENEFITS HEALTH OF VICTORIA MAN

Indigestion, Gas on Stomach and General Run-down Condition Relieved for Queens Avenue Resident

You need go no further than among your own friends and neighbors to procure the facts about Husky, the wonderful herb preparation, distributed by the McFarlane Drug Co. The men and women of Victoria now know from personal experience that this preparation relieves stomach, liver, kidney and bowel ailments and by placing these organs in a healthy condition drives out such common ills as headaches, dizzy spells, indigestion, gas and sour

E. D. HILL
This man will tell you that Husky is the best preparation he ever found for relieving headaches, dizzy spells and a disordered condition of the nervous system.

stomach, constipation, rheumatic pains, nervousness, unsound sleep and weak, worn out feelings.

VICTORIA CASE CITED
Among the thousands here using Husky and telling of the fine results they are receiving is Mr. Robert Brown, 1144 Queens Avenue, clerk at the Douglas Hotel for the past three years and well known in Victoria. He tells of his experience with Husky as follows:

"I had been in a general run down condition for some time. I was suffering from indigestion and had practically lost my appetite. Gas would form on my stomach after meals and make me feel miserable. 'Friends told me about Husky and I began using its treatment. I was really surprised when this medicine helped me so much and now I am feeling like a new man, thanks to the Husky treatment. I am feeling much stronger and indigestion and gas no longer affect me. I actually feel hungry at meal time now. 'Husky is fine and I want to recommend it to those in Victoria who do not know what a splendid preparation it is. Anyone suffering as I did, would do well to give it a trial.'"

QUEEN MARIE WILL REVISIT U.S. AFTER MOURNING PERIOD

Dowager Expresses Wish to Attend States Political Convention

Bucharest, July 27.—Dowager Queen Marie has decided to visit the United States again. She hopes to start soon after the period of mourning for King Ferdinand is over, she told a corre-

Queen Marie of Romania

spondent of the Associated Press today.

In a conversation with the correspondent, the dowager queen, who is gradually recovering from the first shock of Ferdinand's death, said she wished to travel next time as a private person so she could go where she pleased, do as she wanted, not be a burden to the State and municipal authorities and avoid quarrels among her followers.

"There are a thousand and one things I omitted seeing on my last journey, and legends of people I wanted to meet."

"I want to see one of your national political conventions, and if time and my duties permit next summer it is possible I shall be able to leave here in time to see such a gathering."

The queen also told the correspondent she hoped to find time to write a book of her impressions of the United States and the American people.

"I carried back a thousand pleasant memories of my stay in your country," said the dowager queen, "but there were also some mistakes which can be rectified on the next trip."

June Mathis, Noted Scenario Writer, is Dead in New York

New York, July 27.—June Mathis, motion picture scenario writer, died as a result of a heart attack while sitting with her mother in the orchestra of a theatre last night. A few minutes before the final curtain Miss Mathis suddenly screamed: "Mother, I'm dying."

Two trained nurses and a physician, who were witnessing the play, hurried to Miss Mathis and carried her outside to a courtyard. There the physician pronounced her dead.

Queen Alexandra Review—Arrangements are being completed for the annual picnic of Queen Alexandra's Review No. 11, W.B.A., which is to be held this year at Mrs. Robson's camp at Connaught Bay on Wednesday, August 3.

Tea, sugar and milk will be provided free. The party will leave town at 10 o'clock, and the tally-ho will take members and their children free. A good programme of sports is being arranged, and a pleasant time is anticipated. Further particulars may be obtained at 7239L.

YOUR BABY and MINE

By MRS. MARY ELDER

Mrs. Elder will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

THE PREVALENCE OF SUPERSTITIONS

Silly is the correct adjective to apply to superstition. All superstitions are silly. They began because of phenomena which persons could not understand, and have persisted because so many mothers refuse to face them squarely, and by the use of reason discover that they cannot possibly be true. Some are not harmful, but have persisted because they were among the traditional methods of doing things. They allowed the mother to feel that she was doing the best for her child, and that she was following the lead of other mothers.

The old habit of scorching a rag before putting it on a wound was just an old fashioned method of sterilizing the rag. Mothers discovered, perhaps, when they dressed the baby with a scorching rag that it healed without infection, and when they tried to use a scorching rag it did not. The superstition that a scorching rag was used grew out of that knowledge, and it was based on observation of what happened. But a piece of sterile gauze now takes the place of the scorching rag.

Mothers found that if they weaned their babies in very hot weather sickness resulted. In those days we did not know the necessity of using boiled milk in summer or even of the dangers which could arise from milk that was allowed to get warm, or that was not mixed under the best conditions. We were not as familiar with germs as we are to-day, and so out of

KING'S DAUGHTERS TO TAG SATURDAY

Women's Philanthropic Organization to Appeal For Funds

On Saturday the members of the King's Daughters, an organization which carries on a quiet benevolent work among the sick and needy of the city, will make one of its rare appeals to the public by holding a tag day, providing comforts and necessities for poor people who are ailing, making garments for needy families and for the Protestant Orphan's Home, looking after aged indigent people with gifts of fuel and food, and maintaining a rest room for the business girls of the city, the King's Daughters do much splendid work in a non-spectacular way, all "in His Name," according to the motto of the organization.

The assistance of taggers from sister organizations or of interested friends would be gratefully welcomed at the headquarters, Saturday, which will be at the Melrose store, Fort Street. During the day refreshments will be served to taggers at the King's Daughters rest room, Hibben-Bone Building.

Girls Getting Fit At Social Service League's Camp

Through the kindness of Mrs. Cassidy, the twenty girls who are enjoying a holiday at the Social Service League's camp at Cordova Bay, were yesterday regaled with ice cream. The girls, none of whom would have had a holiday but for the League, are having the time of their lives, as one of them expressed it, and are putting on weight, getting tanned, and benefitting in health generally by the holiday.

When the girls return to the city next Wednesday, their place at the camp will be taken by another party of mothers and their babies. The League will gladly welcome donations to the fund for the maintenance of this camp for the underprivileged and needy mothers and children of the city.

Eva Tanguay Wed To Young Pianist

Los Angeles, July 27.—Evidence that Eva Tanguay, widely-known vaudeville dancer and singer, was married to Alexander Brooke, Hungarian concert pianist, last Friday was undisputed by her to-day. A feminine voice at Brooke's home here admitted her identity as Miss Tanguay, but she hung up the receiver when questioned about the event. Miss Tanguay is forty-eight, while the bridegroom's age is given as thirty.

SUMMER CREATES MANY ACTIVITIES AMONG INSTITUTES

Reports From All Parts of Province Show W.I. Busy on Community Work

With very few exceptions the arrival of summer sees a cessation of meetings and activities among the women's organizations, the members taking from June to September for holiday relaxation. But one of the exceptions to the rule is the Women's Institute, for throughout the Province this organization of rural women seems to redouble its efforts for community service during the "dog days" and the sum total of its efforts is prodigious.

The following resume of the activities of the institutes of British Columbia is culled from the reports sent to Mrs. V. S. Macdonald, the superintendent of women's institutes.

Victoria W.I. is assisting in the district judging competition. Elimination contests will be held for Vancouver Island on Thursday, July 28. Members of Victoria Women's Institute will leave their rooms on that date for this competition. Two sewing bees have been held and a good start made on a block quilt. Another quilting bee was held on July 21, which just about finished the wool comforter. These are to be in the provincial exhibit at the Victoria Fair.

Cowichan W.I. The secretary reports—"We all worked hard in June for the jubilee, finished our work at Mereside in Mrs. Leather's beautiful garden. Report of the provincial convention was given by Mrs. R. H. Whidden. A garden party was held at the home of Mrs. Tisdall when Mr. Tisdall gave a most instructive address on poultry, taking members for a tour of inspection through his very modern and extensive poultry plant.

Shawinigan Lake W.I. received monthly report of the activities of the Cowichan Health Centre. The members of this institute attended closing exercises of the Shawinigan Lake Public School, reporting on the creditable work done by teachers and public. The public library is open every morning for the convenience of the Summer visitors. The members decided to buy a life belt and have it hung at the bath house for the safety of bathers. Pamphlets and material from the superintendent of women's institutes, the various conveners was distributed by the secretary. A local committee on home economics was formed with Mrs. Woodruff as convener. The Solarium sent thanks to all who had helped with sewing.

Cobbie Hill W.I. collected \$14.77 for the Diamond Jubilee; the expense was \$123.50. Prizes won by Cobbie Hill were \$50. \$5.00 has been voted for five years to the Otho Scott fund; \$2.50 was voted to the Public Health Committee of the Local Council of Women of Victoria, toward the operating table for tonsilectomy, etc.; \$2.50 to Farmers' Institute for prizes for Fall fair, and \$2.50 to the district convener of agriculture towards the potato show.

Targys and Thrums W.I. are discussing mutual help.

Winfield W.I. are holding a display of women's work, giving a short programme at the next meeting in September.

Keremeos W.I. have agreed to guarantee \$5.00 a month towards the upkeep of a car for the Public Health nurse; also \$5.00 a year for five years to the Otho Scott fund.

Okanagan Falls W.I. arranged a "Bee" to repair the old wharf and put the two sheds in order. Members of the institute served refreshments to the workers; \$40 has been made by the tag day held on May 14, and the Community Hall fund. The children's program written by Rev. H. Few, of Oliver, for the Diamond Jubilee, was a great success.

Bonington and South Slokan W.I. received report from Public Health and Child Welfare Committee, several visits to sick members. The members voted \$5.00 for first aid supplies. Home Economics Committee reported having a bake sale. The roll call at (Concluded on page 8)

Just Plain Foods in attractive form

To promote health in your family serve plain foods. Use an abundance of uncooked fruits and vegetables * * * and whole milk for little ones. But children often refuse milk from glass or cup. Pour it over Quaker Puffed Wheat. These fairy grains intrigue any child. They induce it to take one of nature's simplest and best foods, whole milk.

Puffed Wheat is the whole grain puffed to eight times normal size. Only the most perfect grains respond to the terrific heat and the explosion of the grain. Every food cell is thoroughly cooked and broken down. All mineral salts and bran are retained.

Your children eat Puffed Wheat because it is so good * * * serve it because it is so good for them.

Quaker Puffed Rice, also

Whole rice kernels, steam exploded to 8 times normal size, like the Puffed Wheat. Dainty morsels, light and inviting, whenever a light refreshment is desired.

STOCK PRICES AT NEW HIGH LEVELS

At New York General Motors Up to \$227.25; Others Also Increase

New York, July 27.—Stocks of three of the leading industrial corporations of the United States, General Motors, United States Steel and Du Pont, were bought extensively on the New York Stock Exchange on reports of closer association between them and enormous earnings being shown for the half year.

General Motors, which earned \$14.35 a share in the first six months of the year, touched a new high at \$227.25, and held around that figure in late dealings. Du Pont moved up to \$37.75, and Steel common went to \$129.37.

Hon. J. H. King to Be Luncheon Guest In Terminal City

Vancouver, July 27.—Plans of the Laurier Club of Vancouver to entertain Hon. J. H. King, Federal Minister of Health and Soldiers' Civil Re-establishment, at a luncheon August 1 have been abandoned. It is announced, in order to give the Vancouver Board of Trade a clear field for the luncheon that organization has decided to tender in honor of British Columbia's Cabinet representative.

In return for this courtesy on the part of the Laurier Club, the Board of Trade has volunteered to allow members of the club to purchase tickets for the event.

Dr. King will reach Vancouver July 30 and remain here until August 4. So far no public engagements other than the Board of Trade luncheon have been arranged.

NEWS IN BRIEF

The Pro Patria branch of the Canadian Legion, will entertain members of H.M.S. Colombo at a smoking concert in the club rooms, 625 Courtney Street, on Saturday, commencing at 8 o'clock. Well-known local artists will take part in the programme.

J. H. Grant, 1617 Amphion Street, has been awarded the prize for the best photograph taken at the McBride Conservative picnic held recently. The picture shows two little girls wading at Goldstream. Mr. Grant desires to get in touch with these two girls in order to present them with an enlarged picture of the scene. Ernest Williams acted as judge for the contest.

Miss Margaret Clay, librarian of the Victoria Public Library, announced this morning that the reading and reference rooms of the library will be closed all day to-morrow for painting and redecorating. The children's room was redecorated this week, and when the reading and reference rooms have been finished, the circulating division of the library will be done, thus giving the whole building a spick and span appearance by the end of the week.

BRITAIN URGES NEW TEMPORARY CRUISER TREATY

(Continued from page 1)

"The invitation of the President of the United States to take part in the disarmament conference was understood by His Majesty's Government to be based on a desire to develop the policy of the Washington Conference in diminishing yet further labor and expenditure while maintaining national security.

"With this two-fold aim, His Majesty's Government is in complete agreement, and it desires to measure the merits of every proposal by the degree to which it furthers this two-fold purpose.

"It is with this principle in mind that the British Government has been endeavoring to secure the numbers fixed at Washington.

"It is for this reason also that it suggests limitation of the number and armament of large fighting cruisers on principles similar to those adopted at Washington for battleships.

"This proposal, like the first, would greatly diminish national expenditures without endangering national security.

"The questions connected with smaller cruisers are of a more complicated character. The strength of the fleet can be stated in figures and prepared with precision. This is not possible in the case of smaller cruisers, which can be compared with each other. No such simple position of the subject is possible in the case of small cruisers employed for police purposes in times of peace and necessary for the protection of lines of communication in times of war. Geographical considerations cannot be rationally ignored.

"It is to be noted that the sea routes on which Great Britain depends for existence lie largely in narrow waters bordered by powerful nations. This is the case with the United States, whose most important lines of communication lie either on land within her own frontiers, or on sea along her own coasts, or in great oceans.

Chamberlain asserted that Britain was far from claiming the less right to dictate any smaller cruiser policy to other powers, but that anything resembling the permanent formula adopted at Washington for battleships varied with the geographical and economic position of the powers concerned.

TONNAGE DIFFICULTY

"It becomes more inapplicable when the strength is estimated in terms of gross tonnage without reference to numbers or armament," he said.

The Foreign Minister said a country which for any reason was obliged to distribute its available tonnage among smaller units would probably be at a permanent disadvantage compared with one able to adopt a different scheme.

"There would be nominal parity," he asserted, "but real inequality."

Goodsell Training Hard For Sculling Race With B. Barry

Vancouver, B.C., July 27.—Major Goodsell, world's professional sculling champion, who is to defend his title against Bert Barry, the English titleholder, over the Port Moody course on Sunday Day, has settled down to rigid training.

Goodsell is up each morning around 6 o'clock and takes a six to eight-mile walk before breakfast. After being thoroughly attended by his masseur he takes breakfast and then goes for a spin on the water. His masseur works on him when he returns and he then has lunch.

The same programme is followed again in the afternoon and after dinner the champion indulges in a game of tennis prior to turgling in for the night at 9:30.

Barry will find Goodsell in first class condition.

To Obtain Relief From Neuritis

The nervous system must be thoroughly restored. Here is a case which illustrates this point.

The twitching of nerves and muscles warned Mrs. Mapletto of the exhausted condition of her nervous system. She also had frequent nervous headaches. My appetite was poor and I sometimes took weak spells. I commenced a treatment of Dr. Chase's Nerve Food and in a very short time I found relief. This medicine has done me the world of good and I can recommend it to all suffering as I was.

Mrs. Wm. Mapletto, Mount Forest, Ont., writes: "For about three years I suffered from neuritis in my right side. I had pains through my back and

NORTH SAANICH CLUB CLOSES BUSY YEAR

Directors to Present Encouraging Report at Annual Meeting

The North Saanich Social Club will hold its annual general meeting on Saturday evening, July 30, at 8:30 in the club rooms, School Cross Road. At this meeting the directors' report, balance sheets and auditors' reports will be presented, first directors will be appointed and the constitution, by-laws and house rules revised.

The report of the directors shows that the society proved most successful in its first year of working as an incorporated body. The undertakings planned for the year included:

Provision of adequate club premises; inclusion of a children's gymnasium; to create a scholarship for a third year high school course at Victoria High School. But the financing of the club premises precluded the provision of the scholarship at this time.

The report also shows that the decision of the directors to sell the old school house, formerly used by the club, necessitated the provision of club premises. To this end the old school house was purchased for \$400 and \$1,500 worth of free labor was contributed by the members working against most adverse weather conditions, such as snow and rain during the early days.

To maintain the credit of the club while the building fund was being accumulated the directors and conveners made temporary advances. And it gives our directors great satisfaction to be able to come to you at the end of this financial year with all accounts paid, the club absolutely free from debt, with the exception of \$30 still owing to members of your directorate, which small amount has now been paid, and with \$3,445.48 of assets in excess of liabilities," says the report.

The works committee in its report gave details of the labor entailed in the enlargement of the club premises, in which, thanks to the work of the volunteers, only \$100 was expended in materials. The committee recommended the reinforcement of the underpinning and the painting of the whole building as part of next year's activity.

The entertainment committee reviews the annual Christmas tree and supper to all the children attending the North Saanich School; a most successful concert in March, and the annual picnic in July.

Other reports incorporated with that of the directors included those of the card dance, music, games and sports, and the auxiliary fund-raising activities were somewhat hampered by the necessary concentration on the club building but much had been achieved, and much more active along these lines is anticipated next year.

The personnel of the board and the various conveners are as follows: Board of directors (trustees)—Capt. C. R. Wilson, president; Mrs. M. L. Carver, vice-president; Mrs. Owen Thomas, secretary-treasurer; W. C. Clarke, W. B. Bewick.

Conveners—Works, E. R. Richardson; entertainment, George Smith, cards, M. C. Carver; music, H. L. Bickerton; sports, Mrs. R. Readings; grounds, J. Hill; sports, A. Sansbury.

Impressive Scene At Double Funeral of Motor Victims

The double funeral of the late Mrs. Edith M. Barnes and her son, Leonard Barnes, who were killed in a motor accident last Thursday evening, took place yesterday afternoon. Funeral services were held at the Thomson Funeral Home, 1625 Quadra Street, at 3 o'clock, when the Rev. George R. B. Cameron, pastor of Knox Presbyterian Church, gave a very impressive address. R. G. Howell assisted with the service. The hymn sung was "Safe in the Arms of Jesus." Mrs. M. Morton sang a solo, "We'll Go On to Thee." (Carey). Lawton Partington presided at the organ. There was an unusually large attendance of sorrowing friends present and many beautiful floral designs covered the caskets. Among those present at the service were members of the Young Men's Bible Class of the First United Church, the late Leonard Barnes being a member of the class, also members of Knox Presbyterian Church, Victoria. Arie No. 12, Order of Eagles, turned out in a body to pay their last respects to a departed brother. The honorary bearers for Leonard Barnes were members of the Eagles' Brotherhood, George Rie, D. Drysdale, B. Lister, W. Pasmore, F. C. Gaskins Jr. and A. H. Robinson. The active pallbearers were all members of the Young Men's Bible Class, J. B. Taylor, M. Grant, W. Leith, W. H. Fraser and D. Purvie. The bearers for the late Mrs. Barnes were members of Knox Presbyterian Church, W. C. Douglas, W. C. Wilson, C. Yule, W. Robertson, W. A. Jameson and G. D. Douglas.

The remains were laid to rest in the Royal Oak Burial Park. At the open grave the Eagles' burial service was read by the worthy president, assisted by the worthy chaplain.

LOCAL CONCERN HAS QUICK GROWTH IN WINE INDUSTRY

Growers' Wine Company Increases Business Fifteen-fold

Since the year of its inception, 1923, the Growers' Wine Company Limited of Victoria has increased its output approximately fifteen-fold, and the directors of the concern are convinced they are about to enter into a new era of progress with the opening of their lately constructed plant at Lake Matheson.

The plant was only recently opened and is now busy manufacturing an output of 110,000 gallons of loganberry wine, as compared with the company's first output of 7,300 gallons in 1923.

The latest issue of stock in this company, amounting to \$33,000 in value, is being used, according to the fiscal officers of the concern, Messrs. Gillespie, Hart & Todd Limited, for building a greater business. It is working capital.

OVERSEAS MARKET

There is ample opportunity to secure bigger and more remunerative markets in which, thanks to the work of the Orient, officials of the company have gathered from noted French wine manufacturers who visited here and secured the loganberry product, and from one of England's greatest wine-importing houses.

This latter firm imports tremendous quantities of wine from the colonial manufacturing companies. The company in Australia alone it takes an annual order of 50,000 gallons. This firm signified through its management its willingness to use the product of the Victoria winery if the local market could guarantee a steady supply of its product. Unless the local market is checked and the home demand ignored, the British order could not be filled, it was found, so that opportunity was passed. The fact remains, according to the management, that the wine wine immediately popularly where it is consumed, and that it can create for itself a valuable market.

The quality of loganberry wine which will be sold shortly under the registered trade name of "Logan" (it was formerly known as "Vin de la") is high. Furthermore, it improves with age. After maturing for two years it has reached a state of perfection. Such was the demand for the repeat orders came in so consistently that in the last few years little stock has been allowed to stand for more than a few months. For that reason the best loganberry wine has not yet been sampled by the general public. When it is, the company believes the popularity of its product will increase immediately.

Each year now the company will use 240 tons of loganberries, or something in excess of that amount. That was required in 1926 to produce 110,000 gallons of loganberry wine. These berries are bought from the growers at eight cents a pound, although the company could obtain a quantity for six cents. But since the growers are mostly members of the company the extra expense is excusable.

Y.M.C.A. CAMP AT MATHESON LAKE

Last Week of Camp Being Spent at Lake in Sooke District

After spending three delightful weeks at camp at Beaver Lake, the Y.M.C.A. this morning changed its scene of camp activities to Matheson Lake, in the Sooke district. This camp is being held to meet the demands of older boys who wish to spend a week in the great open spaces and among the great timber of the island. A party of about fifteen left the Y.M.C.A. building this morning and went into Matheson carrying light equipment and supplies. The site selected at Matheson, which is within hiking distance of Metchoan, is within a rugged country, heavily wooded, and ideally suited for the pioneer programme prepared by the Y.M.C.A. committee, under the direction of C. F. Hine. The lake itself is larger than Beaver Lake and affords every opportunity for swimming, diving and boating. Careful supervision will be given the campers, and every precaution will be taken for their safety. The Hikes form a big feature of the programme. Mr. Hine, the Boys' Work Secretary, is personally conducting the camp, and his thorough knowledge of nature and the tricks of the campers promise a profitable as well as an enjoyable week.

The camp at Beaver Lake this year has been even more successful than in former years, and it was with great regret that the campers returned to the city on Monday.

Fletcher Still Leads

Moore Jaw, Sask. July 27.—Ned McKenna, defending champion, was still four strokes behind Fred Fletcher at the end of the third round for the professional golf title of Western Canada this morning. The two leaders paired together and on the round McKenna gained two strokes. Their scores for the round were Fletcher 76, McKenna 74.

MEUSEL SIGNS

MARJORIE LEEMING PLAYS TOWN WINNING GAMES TO-DAY

Victoria Girl Wins Singles Match and, With Hooking, Scores Doubles Win

Miss Campbell and Gordon Won in Mixed Doubles But Later Were Beaten

Vancouver, B.C., July 27.—In the feature of this morning's matches in the national tennis championships, Miss Edith Cross and S. Almquist, of California, defeated Miss Hope Leung and E. E. McCallum of Victoria, in two sets of 8-6, 10-8.

Miss M. Campbell and D. M. Gordon, of Victoria, advanced to a second round match by defeating Miss McCallum and Miss Munro and L. McMaster, of Vancouver, but then went down to Miss L. McFarland, Pasadena, and J. K. Ruscher, Pasadena, who are favorites to go through to the ultimate round.

Marjorie Leeming, Victoria, won her singles match when Mrs. E. J. H. Cardinall, Vancouver, defaulted. She will now meet the winner of the McFarland-D. O'Shea, Vancouver, match, which will not be played until tomorrow due to the fact that through illness, Miss McFarland was excused in her singles play to-day.

Marjorie Leeming and Bud Hooking, Victoria, scored an impressive victory over Mrs. Graham and Dowell, Vancouver, who the previous evening had eliminated Miss E. Griffiths, Seattle, and Bradshaw, Pasadena, who are favorites to go through to the ultimate round.

W. Langlie, Seattle, and Miss Peggy Jackson, Victoria, were knocked out by Mrs. Fawcus, of Vancouver, and W. W. Oryles, of Winnipeg, in easy fashion. McCallum played surprisingly good tennis in his mixed this morning while Hope Leeming found no difficulty in returning the cannonball services of Almquist. Miss Leeming, however, served four double faults at a critical time in the second set to lose the game and give the opposition the edge they so sorely needed.

Weak Sisters Being Eliminated in Canadian Championships at Vancouver and Better Players Are Getting Together; Ossie Ryall Surprises Gallery by His Convincing Victory Over Leroy Rennie, of Toronto; Rennie Is Way Off Form and With Nunns Loses Out in the Doubles as Well

Vancouver, B.C., July 27.—Elimination of Leroy Rennie, former Davis cup star and Ontario representative, by Ossie Ryall, local youngster, provided the big upset of the second day's play of the Canadian lawn tennis championships at the Vancouver lawn tennis courts Tuesday. Ryall won decisively, the count being 6-3, 6-1, Rennie failing to stand up against the play of his youthful opponent at any stage.

Another upset came when Rennie and Nunns fell before Dick and Al Hoogs, of California, in the men's doubles. Martin and Walker, Saskatchewan stars, also fell by the wayside, Allen and Rucher, American flashes, eliminating them.

Rennie was badly off his game in the doubles, netting the ball frequently. Nunns played well and made few errors. The Californian youngsters played a hard hitting, accurate game and fully deserved the win. The score was 6-3, 6-3.

The Easterners led in the second set, 3-2, but their opponents, the clever placemen, advanced through Rennie's temporary lapse, came on to win four games in a row, the last by breaking through Rennie's service losing only a point.

Martin and Walker fell before the Americans, 7-5, 6-2, in a well played match. Other men's doubles terminated pretty much to form.

HELD THE SPOTLIGHT
Probably the finest fight of the day took place in the morning when Army Marion beat Walker in an exceptionally close match. Marion won out, 11-9, 10-6. While neither player was given a chance to advance far, they held the spotlight for half an hour.

Favorites came along nice in the men's singles, six advancing to the fifth round. Leon De Turenne, titleholder, ran through Allen, losing only one game. He won easily, 6-1, 6-0.

George Sparling lost a tough match to Rucher, of Pasadena. The local player was in good form but found the opposition a little too strong, losing out, 6-4, 6-4.

A. S. Milne, local veteran, eliminated Gordon Shields, British Columbia's official representative, in a well played match, the score being 7-5, 6-4. He met Risse, of Kelowna, in the next round, who also advanced. Ryall won over Rennie and will meet Peers, who disposed of McDougall.

Edith Cross, California ace, who is considered the real opposition to Marjorie Leeming, titleholder in the ladies' singles, went ahead by winning from Miss E. Stephens, 6-1, 6-0. Miss Leeming, in the next round, met Miss Carolyn Swartz, another highly rated Californian, played brilliant tennis to dispose of her.

Miss Milne and Mrs. Muir, two strong local players, advanced to the sixteen. The former won easily from Miss E. Jackson, 6-1, 6-0. Miss Leeming met Mrs. Muir to the third set before being disposed of. Mrs. Verley won her match, as did Miss Hope Leeming.

Miss Marjorie Leeming meets Mrs. Cardinal in the next round and Miss Cross plays Mrs. Muir.

MEN'S SINGLES
Lafontaine, Montreal, beat Gilles Woodall, California, 6-0, 6-0.
Cully Wright, Montreal, beat McLean, 6-2, 6-3.
Bud Hocking, Victoria, beat Salter, 6-3, 6-2.
Dr. Wecker, Regina, beat Steve Jones, Victoria, 1-6, 6-3, 6-2.
Marion, Seattle, beat Wolridge, 6-2, 6-2.

SPRINGS SURPRISE

HELEN JACOBS

Manchester, Mass., July 27.—Miss Helen Jacobs, of Berkeley, Cal., to-day defeated Mrs. Mollie Mallory, national women's champion, in the quarter final of the Essex Country Club invitation tournament here, 6-0, 10-8. Uncovering a dashing brand of tennis, which kept the gallery gasping, Miss Jacobs took without the loss of a game the first set of her match with Mrs. Mallory.

The assault by the eighteen-year-old girl took the spectators by surprise, for she is too newly arrived in the women's division to have attained a ranking of the Buchanan Cup under the name of the court which Mrs. Mallory was forced to return with her back hand, again and again forced to return the ball with her back hand.

Miss Jacobs herself made but eight errors in the set and kept her fast service working in perfect order. Five placements scored by her were scattered, and although there were several long rallies she found no opportunity to break through for a game.

Miss Jacobs continued her winning way into the second set.

OUR MAIL BAG

A LARGER CUP

To the Sport Editor.—In Monday night's Times you publish a picture of the "World's Largest Cup Now in City." Twenty years ago in Toronto I took part in a marathon race in which I won the prize.

Returning to Canada and the U.S. took part in this race I beat Tom Longboat, the famous Indian runner. Longboat quit owing to the excessive heat, that's the only reason I beat him.

The trophy for this race was over six feet high and was donated by J. J. Ward, a Toronto clothier, at that time an alderman in Toronto.

A GAME OF QUITS

To the Sports Editor.—Early one morning last week a friend called and asked me to accompany him on what he called as a semi-serious mission near Prospect Lake.

It was a glorious trip, and after leaving the car, we continued on foot. My friend finally decided we were upon the wrong road and must return part way until he found his bearings once more.

His words were "Sherlock Holmes and I must confess I felt very much like Dr. Watson in so far as I knew not what was in store for us. I turned sharp to the left and thundered past an old deserted mill; around many sharp turns, up a very steep hill, and through a forest of tall, thin trees, we came to a large sign "Kilnaryn" upon it.

I was then informed by my friend that there was serious business at hand, in fact the Kilnaryn Quilt Club had challenged the Langford Quilt Club to a championship game and that a silver cup was the prize.

Kilnaryn Lake is beautifully situated, and Herbert Shade, the owner, has turned his property, surrounding it into a veritable paradise.

After discussing as to rules, including stance, the host at Kilnaryn, Mr. Shade, who by the way, is also captain of the Kilnaryn Quilt Club, announced that the game was to be played on the lawn.

A return match will be held in the near future, when no one will be allowed to talk.

CALL BOY, WINNER OF '27 DERBY, SOLD FOR SUM OF \$300,000

London, July 27.—Call Boy, winner of this year's Derby, says The Westminster Gazette, has been sold for £60,000 (about \$300,000) to Harry Mallaby Dealey, Sir Harry purchased Call Boy from the executors of his brother, the late Frank Curzon, to prevent the horse from leaving the country.

Yankees Cannot Be Crowded From Flag

New York's Crew of Hard Hitters Conceded Pennant by Experts, Who Are Not Same Men Who Went All Wrong in Predicting Outcome of Recent Fights; Things Are Different in National League and No One Is Doing Any Predicting; Yesterday's Games

New York, July 27.—The experts are conceding the American League pennant to the New York Yankees. The experts who have concluded the race is all over except the shouting are not the same critics who picked Dempsey to whip Tunney, Willis to beat Sharkey, Delaney to out-punch Maloney and Sharkey to out-punch Dempsey.

The business of experting, it seems, is on firmer ground in baseball than in boxing. When a team goes like the Yankees has a thirteen-game lead over their nearest rivals, the prediction of victory seems fairly safe.

HUGGINS FEELS BETTER
Eugene Huggins is now ready to admit his club has a fair chance of winning the flag. And when Miller becomes as loquacious as that it's significant.

The Yankee camp followers feel so sure that the team is "in" now that they are talking more about breaking the league record for victories than about whether Washington or any club has a chance to overhaul the Huggins.

The sixty-seven victories and a percentage of .720 up to today, the Yankees appear well on the way to smashing the American League record of 108 victories and a percentage of .691, set by the Boston Red Sox in 1912. Little better than an even break in the remaining games would enable the Yanks to break that mark.

They are likely, however, to endanger the major league record of 116 victories for a percentage of .763 made by the 1906 Chicago Cubs.

DING-DONG BATTLE
The National League, meanwhile, is having another ding-dong pennant battle, although the Pittsburgh Pirates and Chicago Cubs have shown more consistency than the world's champion St. Louis Cardinals or Giants.

It might have been a five-club race if Cincinnati had had Hughie Critz around second base at the start, but such pitching as Laque, Linares and Rife have been exhibiting lately.

Now appears that the comparatively small item of some \$2,000 that stood between Critz and the club in their pre-season salary dispute is more costly than it seemed at the time. Critz, when he finally came to terms and reported late, was not in form. It has been only lately that the little second sacker has been up to the mark at bat and at field that rated him the league's second most valuable player last year.

Dan Howley's St. Louis Browns have yet to win a ball game from the Yankees. A crowd of 30,000 welcomed the American League champions on their return to New York yesterday, and Miller Huggins's outfit replied with a broadside of hits that laid the Browns low in both games.

New York took the opener by 15-1 and then pounded out a 12-2 victory. The Yankees have won thirteen games in succession from the St. Louis tribe.

Babe Ruth and Lou Gehrig started their homerun derby, whirling again. The Bambino belted one of Gaston's slants out of the lot in the first inning of the opener and found another in the sixth to tie the game. Ruth's two-run rally in the eighth, the Pirates came back in their half to forge ahead with the tying and winning run.

Cincinnati made it four straight from the St. Louis Cardinals and in their winning streak to six games by handing the world's champions a beating, 11-10. Lucas pitched great ball for eight innings, but was chased to the showers in favor of Donohue, when the Cardinals began to clout his offerings. The Cardinals came from behind and with a rally in the eighth and another in the ninth slashed the Red lead to the narrow margin of one run.

The Cubs were idle, preparatory to opening up their home stand against New York to-day.

AMERICAN LEAGUE
First game—
St. Louis R. H. E.
New York 13 14 1
Batteries—Gaston and O'Neill; Rutherford and Grabowski.
Second game—
St. Louis R. H. E.
New York 12 13 0
Batteries—Jones, Wingard and Dixon; Hoyt and Collins.

First game—
Chicago R. H. E.
Washington 5 7 0
Batteries—Connally and McCurdy; Hadley and Ruel.
Second game—
Chicago R. H. E.
Washington 6 10 0
Batteries—Barnabe, Jacobs, Blinken.

To-night's amateur baseball will include a game at the Royal Athletic Park between the Tillamooks and Spencers, while at Sidney the Crescents will make a bid to put Sidney under the showers. These games are being staged in the competition for the "Reds" Service trophy.

Spencers and the Tillamooks should have a good scrap, because there is not a great deal to choose between them. Pepin will probably work for Spencers on the mound, while Campbell will likely start for the Tillamooks.

Williams, the ace of Sidney, will pitch for Sidney, while Mummery will probably do the gunning for the Crescents.

CHAMPION AGAIN

MIKE MCGUIRE

New York, July 27.—Disposition of two world's boxing titles so far as recognition goes in New York, was decided on yesterday when the State Athletic Commission transferred the light-heavyweight crown from Jack Delaney to the veteran Mike McGuire, and authorized a match between Red Chapman, of Boston, and Benny Bass, of Philadelphia, to determine the possessor of the featherweight title vacated by Kid Kaplan.

The commission elevated "Bold Michael" to the 175-pound peak after granting the request of Jack Delaney, titleholder for the past year, to be relieved of his championship burden. Delaney, declaring himself no longer able to make the 175-pound weight limit, inasmuch as he now scales 178 pounds after several weeks' training, was granted permission to fight in the future as a full-fledged heavyweight.

His first engagement will be a fifteen-round match with Paulino Uzcudun, and conqueror of Harry Wells at the Yankee Stadium on August 11. This was the date on which McGuire was to have fought Delaney in the light-heavyweight title bout in view of Delaney's withdrawal the commission decided it was justified in granting the title recognition to the Irishman.

The commission stipulated that he must agree, within thirty days, to box Tommy Loughran, of Philadelphia, a challenger of long standing.

The return of McGuire to the heights without having struck an actual blow for the title marks another step in the veteran Irishman's sensational comeback. McGuire brought the light-heavyweight title back to the United States in 1923 after winning it from the late Battling Siki on St. Patrick's Day, in Dublin.

Many bike riders participated in the second yearly handicap race held by the Victoria Cycling Club at the Royal Athletic Park last night.

The Peden family figured pretty well among the winners. The "A" two-mile race, with Rose second, while M. Woodley was the winner of the Class "B" event over the same distance.

Next Wednesday the club will hold a meet at the Royal Athletic Park, open to all amateur riders in the city. This event is being staged under the sanction of the Canadian Wheelmen's Association.

Last night's results were as follows: Boys under thirteen, half-mile—1, C. Peden; 2, D. Peden. Time, 1:24.
Boys under thirteen, quarter-mile—1, C. Peden; 2, D. Peden. Time, 4:1.
Class "B," one mile—1, G. Parrott; 2, Bob Peden; 3, A. Morton. Time, 2:21.
Boys under sixteen, half-mile—1, McGavin; 2, W. Robbins; 3, G. Robinson. Time, 2:58.
Class "A," two miles—1, S. Dowling; 2, F. Rose; 3, E. Peden. Time, 4:47.
Class "B," two miles—1, M. Woodley; 2, Bob Peden; 3, Parrott. Time, 4:31.

SOFTBALL
The Onegoes sent the Garrison down to defeat by twenty-three to two, last evening and won the championship of the second half of the "A" section of the softball league. The game was played at Central Park.

In the game between the Andrews and the Hillcrests the latter won by a score of 10-0. The game was played at Central Park.

The Hillcrests and the Onegoes will meet and play for the Colton Cup, emblematic of the championship of the "A" section. The first game of the championship series will be staged next Tuesday evening.

The Hillcrests defeated the Albion Stove Works eight to six after a hard game in section "C." The game between the two mill teams, the Hillcrests and the Onegoes, was won by the former by 17-11. The game was very keenly contested all the way through. This win put the Cameron Lumber team on even terms with the Hillcrests for the first place in their section.

Arrangements have been completed by the Victoria City Kennel Club for the outdoor show to be held on Saturday at Major Niven's residence, 664 Head Street, Esquimalt.

The club has been successful in securing the service of Joe Dodds of Vancouver as judge of all breeds. Mr. Dodds is one of the outstanding terrier and all-round canine judges in British Columbia.

Silver spoons will again be awarded to winners of toy, terrier, sporting and non-sporting classes. Further information may be had by telephoning 3400, after 6 p.m. Entries will be taken at the show grounds on Saturday, from 2 to 3 p.m. Judging will start at 3 p.m. All thoroughbred dogs over the age of three months can be shown at the show.

Make Preparations For B.C. Tournament Opening On Monday

Tennis Championships Will Attract Very High-class Field of Players

Courts Are in Splendid Shape; Accommodation For Spectators Improved

There have been many busy scenes at the Victoria Lawn Tennis Club during the past few days as preparations have been rushed ahead for the B.C. tennis championships, which start on Monday next. The members of the committee have been hard at work getting everything ready and their untiring efforts will no doubt make the tourney a bigger and better one in every way.

The new grandstand was the first feature to be left to-day for Vancouver who sat and suffered from the heat in the Canadian championships last year will be able to sit in comfort beneath a large awning which is in the course of erection. Wire netting has been placed around the front so that spectators will no longer have to be bothered by the wind in the pursuit of stray pills which have caused so much annoyance in the past.

COURTS IN GOOD SHAPE
At the beginning of the current season the courts received quite a bit of ensure on account of their being neglected. However, two months of unceasing effort on the part of the groundskeepers have restored them to their original smoothness.

The three tournament courts in front of the grand stand have been carefully looked over by the committee and can hardly be improved upon.

The entries have already begun to come in. Rev. W. Carroll, president of the club, is receiving a large number of scouting expedition and he will undoubtedly line up a number of the luminaries assembled there for the Dominion championships. Seattle and Vancouver are always well represented here and this year there are sure to be some of the eastern Canadian and prairie players who have since 1924.

The Californians come here in any numbers. In that year, headed by Ray Casey, they dominated the whole week and carried off all the prizes. Now it seems quite likely that this year's touring tennis troupe from the orange state will attempt to do the same and their presence here will add color to the standard of play.

WILL ADD COLOR
The presence here of the P.N.W. sectional representatives will also add a lot of color as they are sure to be entered in the open events as well. From present indications it would seem that Marsh Gordon and Bud Hocking will represent the P.N.W. in the sectional singles with Gordon and McCallum entered in the doubles and Hocking and Fairburn in reserve.

One string is attached to McGuire's title award. The commission stipulated that he must agree, within thirty days, to box Tommy Loughran, of Philadelphia, a challenger of long standing.

BILLY EVANS CHOSEN TO RUN ANNIVERSARY OF WALTER JOHNSON
Chicago, July 27.—Billy Evans, who supplied the first major league game which Walter Johnson pitched, was chosen yesterday to umpire the game August 2 at Washington when the capital host the American League will formally observe the twentieth anniversary of Johnson's debut in the big leagues.

The league will present Johnson a medal in the shape of a Maltese Cross studded with twenty diamonds. President Ben Johnson said yesterday.

OUTDOOR DOG SHOW SATURDAY AROUSES LOTS OF INTEREST
Arrangements have been completed by the Victoria City Kennel Club for the outdoor show to be held on Saturday at Major Niven's residence, 664 Head Street, Esquimalt.

The club has been successful in securing the service of Joe Dodds of Vancouver as judge of all breeds. Mr. Dodds is one of the outstanding terrier and all-round canine judges in British Columbia.

Speculator, N.Y., July 27.—Gene Tunney took time from his training yesterday to deny a report he had been killed in an automobile accident. Spiking rumors that worried all the newspaper offices in Eastern New York, the world's heavyweight champion, smilingly amused, said he was "all right and feeling fine."

Rumors said that Tunney was struck by a car while doing road work in the Adirondack mountains which surrounded his training camp on Lake Placid.

The champion returned to the camp Monday after attending the Dempsey-Sharkey bout in New York City last Thursday. One of the crowd men, a former service man, who voted on Monday to endorse Mayor Thompson's efforts to land the fight, criticized those who would try to keep the fight from coming here on Dempsey's account.

"Tunney had a good war record," said Alderman Bert Cronson, "and it would be an insult to him to refuse him a chance to fight in Soldier's Field."

Newton, Mass., July 27.—Jack Sharkey, Boston's big boy of the prize ring, admitted yesterday that he had suffered a slight aftereffect of his battle with Jack Dempsey in New York last Thursday. But said he was "all right now."

SNARED

A Story of One Wonderful Week
By MALCOLM DUART
Copyright 1927

"That's awful!" she pronounced. "I know it."
"And for such a woman!"
He touched her on the hand. "Don't think hardly of her, Miss Rollins. Life does queer things to us—all of us. How do you know what you will be, twenty years from now?"
"A very happy woman, I hope," broke in the younger brother, his eyes fixed with an odd intensity on the girl.
"I hope so too," said Stewart Bodey. "But, Miss Rollins—if you should spend the next twenty years with a hard and cruel man, who starved you, made you work like a slave, left you alone after months to rot on a lonesome farm and care for your son; if your son were as rough and uncouth as Elbert is—what sort of a woman would you become?"
She hung her head. "I don't know. I'm afraid to think of it!"
The boy Smith across the room yawned loudly and stretched, scraping his heels against the board. "How are we going to eat?" he inquired.
Pierce rolled over and peered cautiously out the window. "Don't yell so," he advised. "Those people up at the house'll hear you."
"I'll yell all I want to," retorted the boy. He emphasized this by adding a noisy "whoop-ee to his remark."
John Edward Bodey stepped swiftly to him. "That'll do," he said. "This thing is tangled enough now, without your adding any difficulties to it."
"But when do we eat?" Smith demanded. "Ms was going to have flap-jacks and sausage and fresh bread and chicken."
"I know! I know!" Bodey's tone was brusque. "The rest of us are just as hungry as you are, but we're not squalling about it."
Smith got laboriously to his feet. "Ain't we going to eat at all?"
"Sooner or later, I suppose. But we can't go out for food with the deputies around the country looking for my brother."
"Your brother? Yuh!" The boy's face was contorted in an elaborate sneer. "All you're thinking about is your brother. We got to hang around starving because of a stew bum like Stewart Bodey!"
The man's face turned deathly white. His arm lifted as if for a quick blow.
"Lay off of me!" screamed Smith. "I'm tired of being bullied by you, you big stiff! I'm going to give myself up and say it was your brother that killed my old man!"
He dodged Bodey's movement toward him, and with unusual agility leaped for the opening through which the ladder protruded from the floor below.
CHAPTER XLIII
It was Pierce who stopped young Smith's flight.
Still lying at full length on the floor he rolled over and caught the boy's legs in his extended arms. Smith fell with a crash.
"One down!" grinned Pierce, tightening his hold upon the wildly struggling youth.
"Hold him a minute longer," said the younger Bodey. He jumped to his bundle of clothing, untied the sleeves of the shirt that formed the cover, and rapidly twisted the garment into a long string.
It was the work of a moment to draw the boy's hands behind him and fasten them. Bodey's second shirt formed a bond for Smith's legs.
"Quit that! You untie me!" the boy yelled.
Bodey muffled him with one hand, clapped hard against his mouth. "Till gag you, if you don't stop that racket," he said. "Would you mind peeping out that window and see if anybody's com-

If you wish to know where the other two or three dozens of little bunnies were I can tell you that they were out in the woods and fields playing different games.
The twelve who were in the bungalow also played games, such as tag the piano, slide down the banister rail and hide the roller skates until they made no much noise Uncle Wiggily could not hear his watch tick.
"Bunnies! Bunnies!" he cried. "You must be more quiet!"
Well the children tried, but they were only quiet for a little while. Then Scrimble and Scramble thought of a new game to play called bang the dishpan, and they banged it so hard that

Uncle Wiggily had to hold his paws over his ears.
"Oh, will nothing make you quiet?" he shouted. "How can I think of going adventuring with all this noise!"
Then Jingle whispered:
"I think if you bought us some oranges, Daddycums, it would keep us quiet."
"How so?" asked the bewildered rabbit gentleman.
"Oh, if we each had an orange to eat we wouldn't want to play bang the dishpan," said Jingle.
"Then in the name of peace and quiet here—go get the oranges!" sighed Uncle Wiggily, giving Jingle some money.
With shouts of joy the twelve little rabbits hopped to the orange store, kept by a kind old dog gentleman. And when he heard what was wanted he smiled, showing all his teeth and barked:
"I shall give you a baker's dozen."
"What's a baker's dozen of oranges?" asked Scramble.
"Thirteen," chuckled the dog. "When you get a baker's dozen it is always thirteen. Here you are!" And, surely enough, he counted thirteen oranges into the bag.
"Isn't that wonderful!" cried Scrimble. "Thirteen oranges! That's one spiece and one left over and—"

"We'll give that extra orange to Daddycums!" decided Jingle, and this was done when they got back to the bungalow.
"Hal! A baker's dozen, eh?" cried Mr. Longears when he opened the bag to divide the golden yellow fruit.
"You eat the extra one!" begged Jangle, and when the rabbit children, now very quiet, went out in the woods to eat their oranges, Uncle Wiggily sat down in the kitchen with a sigh of relief and began to peel his orange.
It was while he was doing this that the Fox and Wolf slipped in the back door. The bad chaps had seen the little rabbit's Nurse Jane and Mrs. Long-

ears leave the bungalow, and knew Uncle Wiggily was all alone.
"It will be a good time to catch him!" growled the Wolf.
"Fine!" barked the Fox. So into the kitchen they sneaked and just as Mr. Longears was going to eat his orange the Wolf snarled:
"Drop that and come with me!"
But just then Mr. Longears squeezed the orange and a stream of juice shot into the eyes of the bad chap.
"Oh, wow!" he cried. "I can't see!"
"I can see, though!" barked the Fox. "I'll catch him!"
"Catch this!" cried the brave bunny. With that he threw two hard orange seeds. One hit the left eye of the Fox

and the other seed banged his right eye. So the Fox had to howl:
"I can't see, either!"
"Then out you go—both of you!" chuckled the bunny. So he pushed them out of the door, tumbling them head over paws down the back steps and telephoned for the Police Dog who came and drove the bad chaps away. Then Uncle Wiggily ate his orange in peace and quietness.
"It's a good thing there was a baker's dozen," said the bunny as he lay down on the sofa to take a little sleep. And if the toy pistol will give the skyrocket a paper cap for the head of the nail, I'll tell you next about Uncle Wiggily and the soldier bird."

BEDTIME STORY Uncle Wiggily and the Orange

(Copyright, 1927, by McClure Newspaper Syndicate)
By HOWARD R. GARIS

One day Mrs. Longears and Nurse Jane Pussy Wussy went to the moving pictures together, leaving Uncle Wiggily in the bungalow with twelve of the little rabbit girls and boys. Of course there were more than twelve little rabbits in Uncle Wiggily's hollow stump bungalow, but there were only an even dozen at home when the two animal ladies hopped away.

Last Minute News on Stocks and Financial Affairs

New York, July 27. — There has been better buying of copper recently, largely on advance of one-half cent in the price of copper metal. The advance has been accompanied by official statistics showing that the copper industry is in a strong position from all angles, including production, surplus stocks and consumption.

There is some talk of Bethlehem Steel earnings for six months ending June 30, earned 75 cents a share on the common stock against \$4.05 in the first half of 1925.

New York, July 27 (By R. P. Clark and Co.)—There were numerous issues in active demand at the best levels for the year but the confident buying of Steel common and General Motors helped to encourage constructive operations in various sections of the stock list. Aside from Steel and General Motors, Chrysler, Baldwin, Atchison, Goodrich, radio, were in good demand at their best levels for year. Some of the rails attracted realizing.

Oils continued with scattered selling. The independent steel issues followed closely the rallies in the premier issue and made their best levels for the day following the publication of the Iron Age Review which was of favorable interpretation. Motors as a group showed more strength than for some time.

New York, July 27 (By the B.C. Bond Corporation direct Wall Street wire).—The Wall Street Journal's stock market edition this afternoon, says: "Professionals expecting a reaction on the good news of Steel's good report were disappointed by the performance of today's market. Traders wishing to take profits found a big demand for their offerings and prices pushed upward on a large turnover."

Steel common forged into record territory for the present, reflecting the confidence of Dupont interests. General Motors responded to its good earnings by pushing into new high ground, while the highest levels of record were also attained by General Electric, Baldwin and Atchison.

Retailers Seek Mail Order Tax

St. John's, N.B., July 27.—The Dominion Board of the Retail Merchants' Association of Canada here today called for resolutions, the most important of these asking further reduction in the sales tax, protesting against the reduction in the parcel post rates and requesting a tax on mail order houses, based proportionally on the operating expenses of merchants in the municipality in which they are conducted. It is urged that such a tax be paid to the Government and distributed in proportion to the municipalities.

The association pledged co-operation with other organizations in the remedying of price cutting evils on nationally advertised goods, and the abolition of the stamp tax.

QUEBEC POWER BUYS ANOTHER COMPANY

Quebec, July 27.—The Quebec Power Company has purchased all the properties and interests of the Compagnie d'Electricite de Montmagny and its two subsidiaries, the Compagnie d'Electricite de Montmagny and the Compagnie d'Electricite de Beloeil.

The transaction involves holdings and property valued at nearly \$2,000,000.

INDIAN SPORTS HELD AT BANFF

Thousands of Tourists Flock to Summer Resorts to See Annual Gathering

Banff, Alta., July 27.—With brilliant sunshine lighting up the beautiful valley of the Bow River, Indian riders from several reserves staged a programme of horse races on sun dance camping grounds here yesterday afternoon just before a sharp shower laid the dust raised by thundering hoofs.

For thirty-seven consecutive years the Indians have been gathering here for their annual sports, but the pageant seen yesterday by thousands of tourists from every part of the world is conceded to have been the finest.

The afternoon programme of sports drew an enthusiastic crowd to the camping grounds, the driving of more than 500 horses out of the enclosure within the race track to their pasture ground being one of the sights of the afternoon. The meet will be continued to-day and Thursday.

Yacht Surprise Sails Homeward

The pleasure yacht Surprise, which was here two months ago on a tour of this coast, left Vancouver Monday morning for Wales, where her owner, G. H. Williams, resides. The Surprise will go North, afterwards sailing via the Panama Canal.

NOTICE TO MARINERS

Mariners are notified that the black wooden spar buoy marking the extremity of the rocky shoal off the west side of Stanley Park, English Bay, Burrard Inlet, B.C., is reported out of position. This aid will be replaced in position as soon as possible.

SCHEDULE OF ROYAL MAIL IS AUGMENTED

Thirty Vessels to Operate From August 2 to March 6 Next in Joint Service

Thirty cargo carriers, the majority of which have refrigerator space, will operate between North Pacific ports and the United Kingdom and Continent in the joint service of the Royal Mail Steam Packet Company and Holland America Line in the period between August 2 and March 6 next, according to the complete schedules received at the local offices of the lines. The routing of approximately one ship a week out of the North Pacific indicates the healthy growth of the cargo movement abroad. The complete schedules for the calendar year of 1927 show a total of forty-five vessels, seven more than were used last year, and over twice the number dispatched in 1924.

This increase in business is due primarily to the modern and complete refrigerator service which gives Northwest western fruit growers a chance to market their products overseas in as good condition as they appear in our close-at-hand domestic distributing points. It is anticipated that the movement of refrigerator cargoes will continue to increase because more and more territory abroad is being reached automatically through the advertising given the products in the districts where they are handled.

The new schedules of arrival dates are as follows: Sabo, August 2; Dintelyk, August 18; Kinderdyk, August 29; Loch Katrine, September 5; Netherby, September 15; Grootendyk, September 19; Drechtdyk, September 20; Moerdyk, October 10; Loch Monar, October 13; Narenda, October 15; Patrana, October 20; Loch Gool, October 27; Zemdyk, October 31; Pardo, November 7; Cardiganhire, November 10; Radnorshire, November 21; Nebraska, November 24; Dintelyk, December 8; Noorderdyk, December 12; Loch Katrine, December 22; Kinderdyk, January 2; Netherby, January 5; Drechtdyk, January 10; Grootendyk, January 13; Loch Monar, February 3; Narenda, February 5; Moerdyk, February 13; Loch Gool, February 16; Cardiganhire, March 2 and Zemdyk, March 6.

Of the vessels listed, but three, the Sabo, Grootendyk and Radnorshire, will without refrigerator space; five, the Netherby, Narenda, Patrana, Pardo and Nebraska, are full refrigerator carriers, and the balance have space for general as well as refrigerator cargo.

Centralia, Wash., July 27.—Fifty thousand dollars loss resulted yesterday when fire of undetermined origin destroyed the mill and 4,500,000 feet of lumber at the Tenino mill, operated by Thurston Johnson and Frank Clark.

With a cargo consisting of 2,500 bales of raw silk, 200 cases of silk goods, 3,500 revenue tons of general cargo and 581 tons of wood oil, the steamship President Grant of the American Mail Line will reach Victoria Monday, according to cable advices received yesterday. The liner is bringing a passenger list of 278.

WRECKING VESSEL TO AID BAY RUPERT

Halifax Ship Reindeer to Assist Hudson's Bay Vessel

Halifax, July 27.—The Halifax shipwrecking steamer Reindeer is getting ready to sail for Cape Harrington, Labrador, where an attempt will be made to salvage the steamer Bay Rupert, which went ashore there on July 22.

St. Johns, Nfld., July 26.—Advices received to-day from the Government steamer Kyle, which was ordered to the assistance of the Hudson's Bay Company's steamer Bay Rupert, stated that if the weather continued good, and proper salvage appliances were available, it was possible that the steamer and its cargo might be saved. Otherwise, there was no possibility of either the steamer or its cargo being salvaged. The extent of the damage to the Bay Rupert is unknown, but the stockhold, engine room and hold number three are flooded.

Sea Cadets Band Will Arrive Home On August 26 Next

According to word received in the city, the Victoria Sea Cadets Band, now touring Eastern Canada after a trip to England, will arrive in Victoria on August 26. The boys have been well received back East and are at present playing in St. John.

ORIENTAL SMUGGLING PLOT IS DISCOVERED

U.S. Immigration Officials Find Japanese Are Entering Country Falsely

Seattle, July 27.—An immigration smuggling plot was disclosed yesterday by United States immigration officials here. Commissioner Luther Weedin declared his inspectors recently became suspicious of numerous Japanese arriving on freighters with letters from reputable business firms in Japan stating the bearers were visiting the United States with the intention of opening branch offices in various American cities.

Ordinarily such credentials would permit the bearer to be admitted for a limited period. Commissioner Weedin explained, but Inspector J. E. Spangler last week telegraphed a New York Japanese business firm asking if Kay-oohi Kato, then detained for investigation here, was its representative. A message came back saying Kato was not known to the New York firm, and further questioning caused the man to admit his credentials were not genuine. Kato then was deported. Meanwhile immigration officers learned of the freighter Paris Maru, but when the vessel reached Vancouver, B.C., the pair went ashore for a stroll and disappeared. Officials here are holding their baggage.

Neptunian is Here To-day For Lumber

To load several hundred thousand feet of lumber here, the freighter Neptunian arrived here this morning and is berthed at Ogden Point. She is expected to be in port loading for two or three days.

The freighter Euro, under charter to the Canadian Transport Company will be here to-morrow morning for lumber, it is expected.

The time used in Pacific standard for the 120 meridian west, it is counted from 0 to 24 hours, from midnight to midnight. The figures for height are to distinguish high water from low water. Where blanks occur in the table, the tide rises or falls continuously during two successive tidal periods.

The height is in feet and tenths of a foot, measured from the average level of lower low water.

Man is Killed On N.P. Track

Aberdeen, Wash., July 27.—A body with the head completely severed was found at 4 o'clock yesterday morning on the main line of the Northern Pacific near Junction City. Articles found with the body indicated the man was Thomas Kelly, Bellingham. A letter signed "Mother" had been mailed to Modesto and a Bellingham postmark.

It is believed he fell from a logging train coming from Modesto. The accident happened a short time before the body was discovered, the coroner believes. The body is held here pending location of relatives.

DIED
BUCKETT—On July 26, there passed away at the family residence, 1515 Fairfield Road, William James Bucket, aged 54 years, a native of this city. He leaves to mourn his loss his widow, one son, Robert William Bucket, two daughters, Mrs. H. Trauer of Vancouver and Mrs. W. O. Boyd of Denver, U.S.A.; also one grandson. He was a member of Britannia Lodge No. 73 A.P. and A.M. Court Vancouver A.O.F. and the Rotary Club.

The remains are resting at the Thomson Funeral Home, 1625 Quadra Street, from where the funeral will take place to-morrow afternoon at 2:30 o'clock, after which the remains will be laid to rest in the family plot in Ross Bay Cemetery. The Rev. Archdeacon E. P. Laycock will conduct the service.

WHEN OUR BABY GROWS UP
I WANT HIM TO BE A GREAT LAWYER
LIKE DANIEL WEBSTER AND
ABRAHAM LINCOLN—WOULDN'T IT
MAKE YOU FEEL PROUD TO SEE
OUR LITTLE BABY APPOINTED
CHIEF JUSTICE OF THE SUPREME COURT?

THERE ARE TOO MANY LAWYERS IN THIS COUNTRY
NOW WHEN THE KID GROWS UP I'M GOING
TO HAVE HIM STUDY COMPOUND INTEREST—
FIRST MORTGAGES AND GILT EDGED BONDS—
I WANT HIM TO BE A BANKER—WHEN A LAWYER
CLOSES HIS OFFICE NOBODY CARES BUT WHEN A
BANK CLOSES EVERYBODY STARTS TO WORRY—
YOU HEAR PEOPLE TALK ABOUT POOR LAWYERS
BUT YOU NEVER HEARD OF A POOR BANKER—
THERE AIN'T NO SUCH
ANIMAL—THAT KID
IS GOING TO BE A
BANKER—

IT KILLS ME WHEN I HEAR THEM
TRYING TO DECIDE WHAT KIND OF A
FLOWER THEIR LITTLE WEED IS GOING TO BE—
JUDGING BY HIS VOICE THE ONLY JOB
WAITING FOR HIM WHEN HE GRADUATES
FROM THE REFORM SCHOOL WILL BE RADIO
ANNOUNCER OR AUCTIONEER—OF COURSE
HE HAS A GOOD CHANCE OF BEING
PRESIDENT HE WAS BORN IN A
LOG CABIN—

HOROSCOPE

"The Stars Incline, But Do
Not Compel"

(Copyright)

THURSDAY, JULY 28, 1927

Aspects of great promise are strong
to-day, according to astrology, which
finds benefic influences dominating.

Under this way the mind should be
calm and well poised, so that patience
with the old and with outgrowth ideas
may be maintained.

Keen vision regarding life and its
duties should mark the mental attitude
early in the morning when the
rule is most beneficial.

Farmers and all who depend on the
land directly for their sustenance
should profit from this date to the
beginning of Autumn.

Labor and industry are subject to a
direction of the stars that is most fortunate,
the seers announce.

Plenty of work is to be provided, for
there will be rustling orders of prodigious
size, it is forecast, for many factories.

Astrologers emphasize the fact that
this is pre-eminently a man's day for
good luck and they advise women to be
quiescent in all important matters.

Construction is to be stimulated so
that engineers, contractors, iron and
steel workers and carpenters profit
greatly, it is prognosticated.

This is a fortunate date for those
who must submit to surgical operations
and most favorable to all that pertain
to hospitals.

Aviation continues under a planetary
rule that will draw to it prodigious
financial support, the seers prophesy.

The sun appears to presage for persons
a period of discontent, owing to
misunderstanding and criticism.

Distortion of motives on the part
of those who wield power is probable
through the press, while this rule of the
stars prevails.

Persons whose birthdate it is have
the augury of a year of unusual success
and happiness.

Children born on this day are likely
to have a high and noble destiny.

Wife—The doctor said at once that I
needed a stimulant. Then he asked to
see my tongue.

Husband (alarmed)—Good heavens!
I do hope he didn't give you a stimulant
for that, dear.

Jack Lockwill's Speedboat

By GILBERT PATTEN

"Oh, let's try it, Jack!" cried Betty, her dark eyes aglow. "Do
give me a spin in it!" There wasn't room for Willie, so he was left
behind. It wasn't the first time Jack had manipulated a speed boat,
but the "Mystery" motor wasn't yet tuned up, and he didn't try to
find out what the boat could do. Coming suddenly from behind an
island, McNally's "Spitfire" roared past them.

"Of course, we expect you to
enter the Cup Race," said Com-
modore Hope to Jack upon his
return to the float. "Doubt-
less that was the intention of
your unknown friend who sent
you your boat." "Oh, you must,
Jack!" exclaimed Betty.

Returning from the lake, Jack and Betty took a short cut by a
path that ran across the land of a man who owned a savage dog.
Seeing them, the man came out of his ramshackle house and let his
dog upon them. Apparently infuriated by the bright sport jacket
Betty was wearing, the beast leaped at her throat. Jack leaped
between the girl and the charging dog, and seized the animal by
the neck with his bare hands.

'ALF'S BUTTON' DRAWS ON ALADDIN'S MAGIC TO REGISTER LAUGHS

It is necessary to use a counting machine to record the number of laughs in "Alf's Button," an Associated First National attraction, at the Variety Theatre. The audiences were kept in a continual uproar during the showing of this six-reel feature comedy, and it is without a doubt one of the funniest comedies shown in this city in some time.

It is a Hepworth Picture Play, and Leslie Henson, a born comedian, for there ever was one, plays the part of Alf—a character unlike any seen on the screen heretofore. There is considerable novelty to the story, and the combination is responsible for rare entertainment.

Alf is one of those creatures who cannot take care of their clothing; somehow or other rips, tears and other mishaps turn his garments into rags. So when his uniform became so

disreputable that it disgraced his company, a new one was issued to him. Then is when Alf's troubles began. For the second brass button on the coat had been made out of Aladdin's lamp, of which fact Alf was not aware at the time. It did not take long for the buttons to tarnish, and when Alf received orders to polish, complications ensued.

TWO BIG PICTURES ATTRACT CROWDS TO COLUMBIA THIS WEEK

When Douglas MacLean turned weather prophet and said, "Let it Rain," he really meant, "Let 'em laugh!" Because, whether he knows it or not, "Let It Rain," his current Paramount release at the Columbia Theatre, had that effect. An overflow audience was kept in ecstasies of joy for seventy happy minutes.

Paul Powell, director of "Jewels of Desire," Priscilla Dean's new star picture, violated all traditions in bringing to a close this production.

In the final fade-out picture fans have come to accept hero and heroine in tight embrace—just the two—alone with each other. Powell, for the finish of "Jewels of Desire," which is on the same bill, has every member of his cast present.

Priscilla Dean, the star, John Bowers, Walter Long, Ernie Adams, Raymond Wells, Luke Cosgrave, Marie Percival and Syd Crossley are all in the final scene of the thrilling picture of treasure hunt on an island in the Pacific.

LOVE FOR CHILDREN HOLDS PAIR TOGETHER IN PLAYHOUSE FILM

"The Honeymoon Express," the Warner Bros. film now at the Playhouse Theatre, offers an interesting viewpoint on married life, particularly that dangerous, indifferent age after twenty years spent together.

Irene Rich and Willard Louis are the featured players in the roles of Margaret and John Lambert, who, after being wed for a score of years, have almost reached the parting of the ways. The only thing that holds the couple together is the wife's love of the dangerous, indifferent age after twenty years spent together. The climax is brought about by the revolt of the mother.

DIRECTOR IS BARBER FOR PLAYERS IN "TILLIE THE TOILER"

The very latest in haircuts—the Marion Davies bob! With Marion Davies as a model and Gertrude Short as a model, Director Hobart Healey demonstrated his ability with the scissors during the filming of "Tillie the Toiler," Miss Davies' latest Cosmopolitan starring vehicle, now playing at the Dominion Theatre.

Miss Short, who was cast in the role of "Bubbles," the girl chum of "Tillie" in Russ Westover's famous cartoon strip, on which the film is based, had bobbed hair but it was not the kind of a bob that she needed for the role.

Festering that a barber might give her the wrong kind of a bob, at the same time realizing that such an acci-

dent would prevent the actress from playing the role, Healey cut her hair, using Miss Davies' bob as a model. Following that operation Matt Moore was called to the chair by the director, who proceeded to give him a "cut" resembling that worn by "Mac" in the comic strips.

TROPICAL JUNGLES EFFECTIVELY SHOWN IN CAPITOL PICTURE

The dense tropical jungles with their animal, reptilian and insect life, their beauty and terror, are shown most effectively in the new First National Picture, "Framed," at the Capitol Theatre. Milton Sills is the star, supported by Natalie Kingston, John Miljan, E. J. Radcliffe, Charles Gerrard, Edward Peil and others.

The setting is largely the diamond mines of Brazil along the upper reaches of the Amazon, with all the amazing verdure, the mystery and thrill of the tropics.

The stage vaudeville includes Wally Pullman, of the Strand Theatre Merry-makers of Vancouver, who with his banjo will offer several popular musical numbers. The Holland duo in a novelty musical and vocal presentation, and Personality and Plus, eccentric dancers, in "What Will They Do Next?" All three acts have been given a tremendous ovation, nightly, and have been conceded to be some of the finest vaudeville presented in Victoria.

GEORGE PHILLIPS IS CHOIR PRESIDENT

Arion Club Chooses Officers and Hears Fine Reports

George Phillips was elected honorary president of the Arion Club in succession to Harold A. Beckwith, the retiring president, at the annual meeting of the club last evening. The affair was held at the home of Mr. and Mrs. Phillips at the Navy Yard last evening, and in accordance with the annual custom the choir rendered a programme of popular numbers at the close of the business, when the appreciative audience included the officers of H.M.S. Colombo and the officers of the Esquimalt naval station and their wives.

OFFICERS CHOSEN

The roster of officers for the ensuing year is as follows: Honorary president, George Phillips; honorary conductor, Herbert Kent; honorary assistant conductor, Frank Behl; secretary, Charles V. Scrivener; financial secretary, F. M. Russell; honorary treasurer, H. W. Wilders; librarian, F. Clegg; assistant librarian, George Guy; honorary auditor, D. D. Muir.

The executive committee comprises H. Kent, F. J. Behl, T. Lewis and P. Hughes. The management committee comprises all the above and E. Clarke, Tom Kelway and P. M. Shanley. F. F. Patt, who, to the great regret of the members, is retiring after fifteen years' active membership, was on the unanimous vote of the membership made an honorary member.

In his annual report Herbert Kent, conductor, thanked the members for their loyal support, and touched upon the plans for the coming year. These are ambitious, for the club is bringing two English artists, the Izard Sisters here in November. The artists are sisters of Miss Mary Izard, the violinist who made her home in this city for some time before her marriage, since when she has lived in Montreal.

The secretary's report stated that the club was at the beginning of its thirty-sixth season. During the past year the usual two concerts had been given, and in addition there had been concerts at Esquimalt and Sooke.

Among their singing triumphs during the season had been the winning of the male-voice choir shield at the Victoria Musical Festival.

Social activities included two smokers, one in the club rooms, the other at Kelway's restaurant. Just a week ago a successful open-air concert had been given at Stouzon Park, when a good collection was taken up for the Y.W.C.A. building fund.

FINANCES SOUND

Harold Beckwith, the retiring president, touched briefly upon the club's activities of last year. The treasurer's report showed a satisfactory balance to the club's credit.

The president extended a welcome to three honorary members: George Jay, D. D. Muir and Capt. Wollaston, and to Owen Smythe and William McDonald, members of the choir who have not been able to be present for some time. The meeting passed a vote of thanks to the retiring officers and the auditor, Mr. Muir.

At the conclusion of the informal programme, which included a number of old favorites from the club's repertoire, Mr. and Mrs. Phillips served refreshments, the club showing its appreciation of the hospitality by calling for the host and hostess.

"ROAD TO HEALTH" IS LECTURE THEME

Right Eating is Basis of Physical Salvation, Says Dr. Barton

Dr. Arthur F. Barton will deliver a popular health lecture in the New Thought Temple, 935 Pandora Avenue, to-night at 8 o'clock. The subject will be, "The Royal Road to Health."

"Right eating is the basis of our physical salvation and to a great extent our mental and spiritual welfare," says Dr. Barton, "for the reason that all foods have an individual and unerring effect on body and mind. Just as alcohol and other poisons have their peculiar effects, so do all the natural foods have their own identical effect and influence on the life and well-being of man."

"Ignorance about food has cost the lives of millions before their time, and caused millions to suffer the greater part of their lives in untold agonies. Not knowing from whence the suffering comes, they have blamed it on the will of God, and every conceivable cause except the right one, which is foods wrongly used and the use of wholly unnatural foods."

COURT VANCOUVER ARRANGES PICNIC

A.O.F. Members Spend Enjoyable Day at Mount Douglas Park

On Saturday afternoon last the members and friends of Court Vancouver No. 5765, A.O.F., met at Mount Douglas Park and held a delightful and successful picnic. The picnic committee, composed of Bros. E. Matthews, J. Bianco, H. Fisher, E. C. Moore and C. Holman worked hard and presented a fine programme, which was much enjoyed by all. The following were successful in the races, etc.:

Girls' race, six years and under—1, L. Bianco; 2, F. Creed.
Boys' race, six years and under—1, L. Bianco; 2, H. Francis.
Girls' race, twelve years and under—1, E. Creed; 2, E. Bourget.

Boys' race, twelve years and under—1, A. Rendrew; 2, B. Miles.
Single ladies' race—1, N. Jewell; 2, M. Foyer.

Single gentlemen's race—1, H. Whitte; 2, H. Holman.
Ladies' race—1, Mrs. Jordan; 2, Mrs. Rendrew.

Gentlemen's race—1, H. Holman; 2, A. Rendrew.
Wheelbarrow race—1, Mr. and Mrs. Jordan.

Egg and spoon race—1, Miss M. Foyer; 2, Miss P. Matthews.
Novelty race—Miss M. Longley and E. Moore.

The tombola prizes were won as follows: 1, J. Taylor, No. 132; 2, J. Bianco, No. 14; 3, Woodcock, No. 113; 4, Mrs. M. Francis, No. 2.

A ball game took place between the single and married men, resulting in a victory of 11-8 for the latter. C. Jordan acted in the capacity of umpire, and his decisions kept the crowd in a roar of laughter the greater part of the time.

After spending a very happy afternoon the members and friends returned home by way of tallies.

Pender Island

Pender Island, July 27.—Mrs. Fred M. McGregor and her sister-in-law, Mrs. Wm. Yang, were hostesses last Thursday afternoon at a miscellaneous shower for Miss Margaret Brackett at their summer home, "Sunnylope," Browning Harbor. Little Maurice Young, drawing a gaily decorated wagon, presented the dainty gift-box to the bride-elect. The many useful and practical gifts testified to the popularity and good wishes of everyone for her future happiness in her new home at Chemainus. A guessing contest was won by Mrs. W. G. Wilson, and later dainty refreshments were served by the hostesses. Those present were Mrs. R. S. W. Corbett, Mrs. J. K. Unsworth, Mrs. Mollison, Mrs. H. Hamilton, Mrs. Taylor, Mrs. J. A. Brackett, Mrs. B. H. Auchter, Mrs. L. Auchter, Mrs. W. B. Johnston, Mrs. W. H. Barcham (Victoria), Mrs. Fry, Mrs. Boyce, Mrs. Phelps, Mrs. E. Pollard, Mrs. W. G. Wilson (Victoria), Mrs. Stebbings, Mrs. P. W. Garrett, Mrs. Young and Mrs. McGregor, and the Misses Beth Brackett, Elsie Bowerman, Edith and Mae Bowerman, Gerlie Adams, Doreen McGregor and Georgiana Wilson.

Mr. and Mrs. Wm. Pierce of Britannia Mines are visiting with their children, with Mrs. Pierce's parents, Mr. and Mrs. Richard Roe.

A party of about thirty-five spent a very enjoyable picnic at the Sidney Experimental Farm last Wednesday, under the auspices of the local Farmers' Institute. Free transportation to and from the farm was very generously provided by the Sidney Board of Trade.

Luxton

Luxton and Happy Valley, July 27.—At the pupils of Happy Valley School who sat for the entrance examination were successful and the congratulations of the district are extended to the teacher, J. T. Bruce, on the good showing of pupils. Following are the pupils who sat, with the respective marks obtained: John M. Scouler 408, Norman Rode 368, Evelyn Smith 359, James S. Scouler 318 and Elsie G. Smith 300.

The dance held in the Luxton Hall on Friday evening last met with the usual success. Upwards of 100 dancers were present. Refreshments were served by a committee composed of Mrs. Madgers, Mrs. Oliver and helpers. The next dance will be held on August 3. The vacancy in the Luxton Hall committee occasioned by the resignation of W. Whybrow has been filled by R. Oliver.

Mrs. Richdale of Victoria is the guest of her daughter, Mrs. Jack Trace, at "Glendale Cabin."

Mr. and Mrs. Carl Stocker are spending the summer at their camp on Glen Lake.

a holiday with Mrs. Brice at "Valley Cottage."

Miss Phyllis Brice had a narrow escape from what might have proved a serious accident when her car collided with another at the corner of Albert Head and Happy Valley and Sooke Roads.

The "Busy Bee" Girls' Health Club of Luxton and Happy Valley were taken on Tuesday afternoon to visit the Queen Alexandra Solarium by the supervisor of the club, Miss H. Kelly, permission having been obtained from Miss Willis, matron of the Solarium.

Mrs. J. Hughes of Mill Bay gave very kind permission for the visiting party to partake of their picnic lunch in the beautiful grounds of her home, which kindness was very much appreciated by the club. The girls hope to gain added incentive from this visit to redouble their efforts in the interests of health work during their next season. The expenses of the trip were raised by the members, through the co-operation of the Luxton and Happy Valley Women's Institute who, at their last meeting, allowed the girls to hold a sale of articles and home-made candy, etc. A pleasing programme of entertainment was presented by the club, who afterwards served tea to the members of the institute.

Langford, July 27.—The Misses Doris and Irene Roper, from Victoria, are visiting Mrs. B. B. Jeffrey, Millstream Road.

A surprise party visited the home of Mrs. George Newbury, Dunford Avenue, Monday, to celebrate the birthday of Miss Helen Newbury. A jolly time was spent with games, music and refreshments. The self-invited guests were Mr. and Mrs. H. Pearce, Mrs. G. Newbury, the Misses Evelyn Smith, Annie Bartlett, Jean Soutter, Ada Simpson, Wilma Pike, Ruth Pearce and Masters Robert Frewing, Fred Newham and Wilbur Pearce.

Miss Jean Soutter and Miss Ada Simpson have returned to their homes at Langford from Kootenay, B.C., after spending a most enjoyable time.

Mrs. Herbert Pearce and Miss Ada Simpson have returned to their homes at Langford from Kootenay, B.C., after spending a most enjoyable time.

Mrs. Kathleen Miles of Blackwood Street, Victoria, is visiting the Misses B. and M. Smedley, Goldstream Road, Langford.

Mrs. William Sharcott and children have left Dunford Avenue and are visiting in Victoria before joining her husband in Seattle.

The result of the league softball game played at Central Park on Tuesday night resulted in a win for the Cameron Lumber Company, beating the Wilfred Lumber Company by four runs, the score being C.L. Company 15, W.L. Company 11.

On Thursday evening on the Goldstream Road the Wilfred Lumber Company play against a Langford team.

FRENCH AVIATOR HAD NARROW ESCAPE

Paris, July 27.—Dropping 20,000 feet from falling aeroplane and yet living to tell the tale is the experience with which the French pilot, Emile Van Laere, is credited.

An aeroplane he was testing near Beaumont-cur-Oise began to fall from a height of 7,000 metres, it is said. The parachute did not open until he was a thousand feet from the ground. Although somewhat stunned from his rapid descent, Van Laere was not injured.

LEAVES OIL DESERT FOR ISLAND FARM

Tourist Came and Decided to Purchase Farm Here

Arguments of tourist advocates that holiday-makers are prospective settlers, are supported by a letter received by Publicity Commissioner George I. Warren from a resident of Taft, California. Descriptive literature sent to him by the bureau, induced him to include Vancouver Island in his Puget Sound tour. "I felt more than repaid for the journey," he writes. "Perhaps my best way of expressing my appreciation of Vancouver Island is to say that I am purchasing a block of eleven acres and am going to try my hand at raising small fruits and poultry."

After several years in the oilfields of the California desert, the new life on Vancouver Island promises charms for the new settler.
